

ELECTRIFIED EFFICIENCY

Advanced and efficient P300e plug-in electric hybrid offers the best of all worlds, with practical electric-only range of up to 61km (38 miles) and rapid DC charging.

ALL-ELECTRIC

Complete more than 90% of average daily journeys* in EV mode with next-generation battery chemistry offering an improved expected real-world electric range of up to 47km (29 miles) and a WLTP-certified range of up to 61km (38 miles).

PERFORMANCE

A 14.9kWh battery, efficient 1.5-litre, 3-cylinder Ingenium petrol engine and 80kW electric motor ensure effortless progress, with 0-100km in 6.6 seconds (0-60 mph in 6.2 seconds).

RAPID CHARGE

Discovery Sport P300e charges from 0-80% in as little as 30 minutes, thanks to its rapid DC charging capability, when used with a 50kW charger. Charge fully at home in around two hours using a standard 7kW home charger.

*Average daily journey length (51km) calculated using InControl data from 30 markets globally for Discovery Sport vehicles, between 2019 and 2022. Assumes fully charged battery. The figures provided are as a result of official manufacturer's tests in accordance with EU legislation with a fully charged battery. For comparison purposes only. Real world figures may differ. CO₂, fuel economy, energy consumption and range figures may vary according to factors such as driving styles, environmental conditions, load, wheel fitment, accessories fitted, actual route and battery condition. Range figures are based upon production vehicle over a standardised route.
