Tribal Wars 2 reaches 1 Million Registered Users within Beta

Hamburg, October 30, 2014. Online games developer [InnoGames](#) has published first numbers for the open beta start for [Tribal Wars 2](#): The worldwide browser beta, which already supports a total of 20 language versions, amassed over a million registered players within 6 weeks. This makes Tribal Wars 2 the fastest game to ever reach a million registered users for InnoGames. The game follows its legendary browser predecessor [Tribal Wars](#), which has 55 million registered players worldwide. Following the company's cross-platform strategy the Android and iOS-Versions will be released soon.

In Tribal Wars 2, players find themselves as the leader of a small village in the midst of a medieval world. Tasked with growing and expanding their empire within a war-torn landscape, they have to fight in order to survive. The MMO's focus is real-time, strategic battles with and against other players. The game is designed as a cross-platform game for browser and mobile to enable players to use the same account for web, iOS and Android while still experiencing the same game world, with the same rivals and allies. During the beta period, the game will only be available for browser. The launch of the mobile apps is planned for the near future.

With about 130 million registered players, InnoGames is one of the world's leading developers and providers of online games. Currently, the Hamburg-based company employs 350 professionals from 25 nations. InnoGames has scored major success with games such as Tribal Wars, [Grepolis](#) and [Forge of Empires](#).
