

# Successful year 2023

**Increased delivery**

**Basis for further strategic development**

**Record result for the brand**

**ID. Buzz Pro** – Power consumption in kWh/100 km: combined 22.0-20.7; CO<sub>2</sub> emissions in g/km: combined 0; CO<sub>2</sub> class: A. No consumption and emissions values are available according to NEDC for this vehicle, only according to WLTP. Information on consumption and CO<sub>2</sub> emissions, shown in ranges, depends on the selected vehicle equipment.
