

Coppa Club: **THE TOWNHOUSE, GUILDFORD**

The Townhouse is located on a beautifully cobbled bustling high street in the centre of Guildford, in the iconic and locally-loved Burton's building. Set across three floors, the layout is designed so that guests can settle in for the day enjoying a members club-mentality with all-day dining, co-working, drinking and socialising all under one roof.

The corner site of the Burton's building offers welcomed views into the ground floor café and workspace lounge with expansive crittal style windows framed with a soft blue facade and hand painted gold signage. Entering Coppa Club, you are greeted by a patterned marble mosaic lobby with a dressed vintage side cabinet with colourful artwork and oversized theatrical planting.

Work & Play

The ground floor is a café, bar and workspace, with a 'snug' lounge area perfect for working from, catching up with friends, or simply relaxing. This space is designed to combine the best elements of both a workspace and a café, ensuring guests are comfortable whatever their needs. The ground floor represents Coppa Club's classic layout with a vintage inspired timber cafe-bar and a laid-back cosy work space, in a relaxed and stylish interior. Tonal textured walls layered with curated gallery art are illuminated by bronze picture lights which set the scene on the ground floor for a fresh and inviting all day atmosphere. Distinct areas are created through a carefully considered selection of furniture and bespoke back-to-back banquette seating positioned centrally in the space creating a natural flow between café-bar and workspace.

Dine all day

The middle floor features a brasserie and private dining space, with the brasserie open for all-day dining options, serving everything from brunch and lunch through to late-night dining. Open based banquette seating with contrasting rugs and a central antique brass chandelier creates a homely and relaxed feeling to the brasserie floor. The central stone fireplace

is framed by a warm timber-stained bookcase with subtle vintage detailing and a vibrant patterned inset wallpaper. Relaxed yet refined furniture is upholstered in a combination of poppy and textural fabrics which is echoed in the bespoke artwork colour palette creating a friendly and informal experience.

The private dining room features a fresh quartz tabletop inset in a brass and timber edge band. This pops against a rich green palette with a bold retro inspired wallpaper, beautifully reflected by large arched brass mirrors. A drawn curtain allows for guests to close away from the brasserie for a more intimate dining atmosphere.

Guests can journey through the floors using the feature brass framed glass lift that gently ascends through the bespoke hand-painted mural designed and created by Run for the Hills. The flowing mural takes inspiration from the interior colour palette, starting on the ground floor using a layering of neutral tones before rising to the club lounge on the second floor where the colour deepens, mixing in layers of lively rich blue accents before your arrival to the ambient cocktail bar.

Dance the night away

The Townhouse top floor boasts a destination cocktail bar with its own curated cocktail list, created by Coppa Clubs expert mixologists. Signature blend cocktails and the in-house DJ can be enjoyed from the comfort of the club lounge sofas and cocktail chairs under a dark and moody blue ceiling. The statement copper bar and metal framed arched back bar sets a dramatic yet approachable backdrop to the cool and contrasting interior colour palette of vibrant pinks, icy blues and ochre yellows.

The club lounge walls are dressed with a feature stone fireplace encompassed by arched timber mouldings, classic yet contemporary bobbin detailing and a wow factor marble wallpaper. These characterful elements are softened by rich velvet curtains and glows of moody low-level lighting from brass pendants and Murano glass wall lights.

Bespoke deep fluted sofas and cosy lounge booths are upholstered in sumptuous, bold velvets with exquisite two-toned fringe detailing paired with punchy patterned pouffe seating creates the perfect space to enjoy a cocktail amongst friends.

Drawing inspiration from the mural, Run for the Hills talented graphics team added a dramatic touch through hand-painted canvas art layered with a vibrant glow of amber neon.
