ORGANIC BODY MAPPING

ORGANIC VENTILATION ZONES

The organic ventilation zones are shaped to follow the real human body needs, delivering an ergonomic breathability and perfect moisture management.

FULL BODY MOVEMENT

Innovative Motion Design ensures full movement and no restriction during your sports activities.

ORGANIC BODY MAPPING

Odlo introduces the next generation of body mapping. Developed in partnership with Zaha Hadid Designs, this combination of engineering and design insight delivers advanced climate control and natural freedom of movement for your various sports activities.

PERFECTED CLIMATE CONTROL

The body stays warm in cold conditions thanks to warm zones in key areas of the garment.

FREEDOM OF
MOVEMENT

KEEPS YOU
WARM
