When your accommodation becomes more than just a roof over your head.

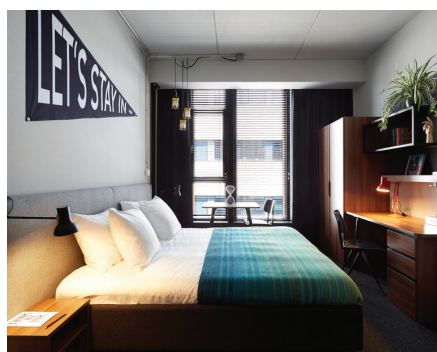

The Student Hotel Amsterdam City is the second location in Holland's vibrant capital city. The former office and printing facilities of Trouw and Parool newspapers were converted into a flagship 574-room hotel, with a range of facilities including a fully-equipped gym, 4 classrooms that serve as playful work-and-meet environments, and a global tapas restaurant that fuses international comfort food with regional favorites.

The latest addition to the flagship hotel is Collab, a fully livable co-working space where work facilities meet the full-service amenities of a hotel. The space has its own striking large-scale auditorium, with advanced audio-visual technology and seating for up to 150 people. The 24,000 m² property is located five minutes from Amsterdam city center, nine metro minutes from Zuidas, nine metro minutes from Zuidooit.
