Apply the formula directly to lips and experience an immediate reduction in the appearance of fine lines alongside a wash of hydrating color. The solid-to-fluid formula with conditioning emollients leaves a lightweight feel that stays in place to leave a color-true, semi-matte finish with subtle luminosity.

Presented in a matte black-on-black lipstick case that slips perfectly into any makeup bag, clutch or pocket. The click-seal cap ensures first-wear freshness and prevents the formula from drying out.

Available as from beginning November 2025 at de Bijenkorf.
