

Press Release

EVOC SPRING/SUMMER 2019:

MULTICOLOUR – THE COLOURS OF TRAVELLING MEXICO

In 2019, vivid travel memories previously stored in our luggage will take to the road in all their glory: on our recent mountain bike road trip to the best trails in Mexico, we have experienced the most beautiful landscapes. The unique hues of those landscapes serve as inspiration for our brand-new MULTICOLOUR EDITION.

Grey-blue hues of mountains in the evening light, earthy browns of clay trails, blue tones of the sky and the lakes – these unique images of a truly amazing mountain bike trip will forever make the most beautiful moments a part of EVOC. Our new **MULTICOLOUR EDITION** sends the most striking colour impressions of Mexico out into the world again, in the form of highly functional luggage in “Loam”, “Slate” and “Copen Blue” colourways. Additionally, to mark the Munich-based bags and backpacks brand’s ten-year-anniversary, the line is emblazoned with a very special print – the stylised skylines of Munich and Hong Kong– in honour of where the EVOC story originated.

Four brand-new members of the EVOC product family are going on **MULTICOLOUR** bike tours in 2019: For the first time ever, EVOC’s classic **FR TRAIL 20I** is now available in this inspirational colour combination. The **MISSION PRO 28I** backpack for digital nomads, the **TERMINAL ROLLER** for short trips and the **TRAVEL CASE** for essential travel documents also expand this edition of top-quality travel bags. The **BIKE TRAVEL BAG** with a few updates, the **TERMINAL BAG**, the completely redesigned **WORLD TRAVELLER** (an organisational wizard that now weighs 20 percent less), and the **WASH BAG** are on board again, too. Here is an overview:

MISSION PRO 28I – in “Loam” or “Copen Blue”

Take your office on your adventure tour in the new MISSION PRO backpack from the **TRAVEL** series. The padded, quick-access back compartment offers enough space for your laptop and tablet, while the main compartment features several dividers for documents. Passport, mobile phone and the like will definitely not get lost when stowed in the additional top compartment. Necessities go in the backpack’s front compartment. Store your charger cable and headphones in an external compartment on one side and your

drinking bottle in a flexible mesh pocket on the other for quick, convenient access. The high-quality carrying system of the MISSION PRO is enhanced by a completely stowable hip belt and height-adjustable or entirely detachable chest strap. The MISSION PRO now also features magnetic **QUICK SNAP FASTENERS**, which are even easier

In the last 20 years, we have travelled to more than 50 destinations – always in search of the best trails and most amazing powder runs. Finding the right backpacks and bags that met our requirements in terms of functionality, protection and quality was difficult. So, we started developing equipment according to our personal preferences. Since 2008, EVOC has stood for evolution and the concept of high-quality, sporty backpacks, bags and luggage – with a particular focus on proper protection. EVOC – PROTECTIVE SPORTS PACKS

to open and close. Perfect ventilation is the result of the integrated **AIR PAD SYSTEM** guaranteed to keep your back dry even on the warmest days dry. In short: the perfect mobile office for digital nomads.

NEW: TERMINAL ROLLER

The brand-new little brother of the TERMINAL BAG has ideal cabin luggage dimensions and 40 litres of capacity to make it the perfect companion for any short trip. Your gear and essentials are safely separated and stowed in the main compartment, laptop pocket and attached organiser compartment of this handy trolley case to make sure they reach your destination in perfect order. You'll move swiftly and silently from departure to destination, thanks to the **TERMINAL ROLLER'S** smooth-rolling skate wheels.

NEW: TRAVEL CASE

2019 sees the **EVOC CITY & TRAVEL** line grow by an accessory that you will never want to go travelling without again: The convenient **TRAVEL CASE** is an organisational aid for your crucial items: passport, boarding cards, credit cards and documents which must not get lost under any circumstances. Two transparent zip pockets accommodate your memory cards, keys and other necessities.

UPDATE: BIKE TRAVEL BAG

The living legend among bike travel bags now boasts three colours and a number of updates! The **EVOC BIKE TRAVEL BAG** safely transports racing, triathlon as well as XC, freeride and downhill bikes to their designated place of use. New dimensions can fit 29" bikes with wheelbases up to 124 cm (49 inches), and the side compartments for the wheels now fit up to 29-inch tyres or tyres with a 2.6-inch width. Reinforced top and side walls make for even more stability. On the inside, a polycarbonate block and signal red straps on the new, inner black material ensure secure stowage of the contents as well as easy handling. New for 2019, the **BIKE TRAVEL BAG** can be folded to a third of its size when empty and conveniently stored.

In the last 20 years, we have travelled to more than 50 destinations – always in search of the best trails and most amazing powder runs. Finding the right backpacks and bags that met our requirements in terms of functionality, protection and quality was difficult. So, we started developing equipment according to our personal preferences. Since 2008, EVOC has stood for evolution and the concept of high-quality, sporty backpacks, bags and luggage – with a particular focus on proper protection. EVOC – PROTECTIVE SPORTS PACKS

NEW: FR TRAIL 20I

The daypack with integrated **LITESHIELD BACK PROTECTOR** and 95% impact protection is the perfect companion for any mountain bike tour. The Multicolour version, too, offers a separate tool compartment that can be opened wide, a goggle pocket and sufficient space for a 3-litre hydration bladder as standard features. And of course the pack also has a rain cover, as well as a helmet and protector holders.

TERMINAL BAG

Not only does the **TERMINAL BAG** now hit the road with the MULTICOLOUR design, it has also been completely revised. The multi-functional 40-litre trolley with detachable 20-litre backpack has the same capacity as before yet is slightly shorter, which means that it is guaranteed to fit in any aircraft cabin. The backpack itself features a main compartment with integrated laptop pocket and two compartments for necessities and documents. And as is standard for EVOC products, the pack offers excellent carrying comfort thanks to newly adapted shoulder straps, foam padding at the back and great ventilation. Plus, you can make the backpack one with the trolley in no time at all with the help of a new zipper cover and snap fastener. The **TERMINAL BAG** rolls easy thanks to large, smooth-rolling, almost noiseless skate wheels with sealed bearings.

WORLD TRAVELLER

A cupboard and a suitcase in one! Boasting 125 litres of capacity, the sturdy and spacious **WORLD TRAVELLER** is the perfect trolley for long trips. A **completely new** feature is the self-stabilising construction on the rear side with a deep base, making it the first-ever product of its kind. Besides the rounder shape, utilization of an EVA shell achieves a weight saving of 20 percent. The restyled wheel case with reduced design for accommodating the smooth-rolling skate wheels offers additional stability. The supporting foot with anodised rail and laser tag has also been developed by EVOC. Both components are extremely robust, and eye-catching, to boot. A specially designed business card holder enhances the quality rating, as do the sturdy buckles and TPU zipper puller designed by EVOC.

A no-tilt suitcase made of durable materials, the **WORLD TRAVELLER** can be used and loaded in an upright position – just like a cupboard. Four compartments with variable dividers and a through-loading option, compression belts for large luggage as well as a number of necessity

pockets ensure that everything is organised neatly during your trip. The main compartment can be securely locked. The new Teflon-coated lining on the inside matches the MULTICOLOUR exterior, and premium leather patches guarantee a cosmopolitan style.

WASH BAG

Your washing station for on the road – robust materials and a clever design make the **WASH BAG** the perfect companion when it comes to travel hygiene. This convenient toiletry bag can be hung up, has a removable pocket mirror and an interior with variable partitioning options, including a number of separate pockets. Extra convenience comes with the toothbrush holder and additional waterproof pocket.

The new **MULTICOLOUR EDITION** is now available for purchase.
