PRESSKIT 2018

SPRING / SUMMER NOVELTIES 2018

In 2018 we are introducing new additions to the Notre Monde collection. You can expect an abundance of vibrant color and lively new items like the new Bright Abstract collection and new Mini Trays.

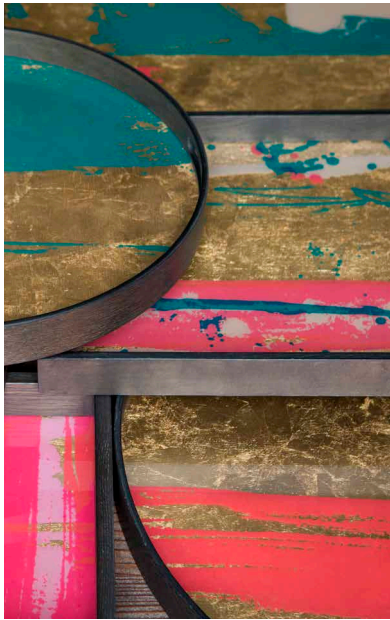

The meticulously selected new and lively patterns for existing items and fresh interpretations of classic Notre Monde pieces are the highlights of the new 2018 collection. Inspired by nature and brought to life with the tremendous skill of craftsmen, the new additions will undoubtedly become the focal point in any space they are placed. Each element is designed by Dawn Sweitzer. Due to the hand-crafted nature of the Notre Monde products, each will vary slightly and is as unique as you and me.

The Notre Monde booth evokes a unique, welcoming and relaxing atmosphere that can be best described as “extraordinarily lavish and eclectic.” The inspiration for our new booth came directly from the setting we chose for the 2018 catalog.

The unique location we selected served as the perfect stage to present the new protagonists of the Notre Monde collection. The result is the embodiment of the distinct perspective of our vision for Notre Monde.

“Our products aim to add that little touch of luxury to your space and express your personality through our wide range of unique patterns. We also encourage you to mix and match different trays according to your own tastes and preferences.” Dawn Sweitzer. Designer

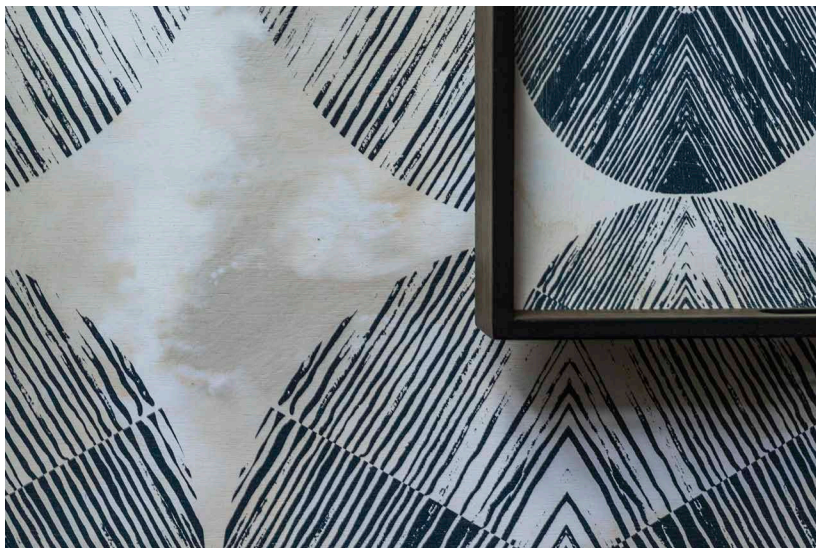

BRIGHT ABSTRACT

VIVID EXTRAVAGANCE

A free-spirited vision, inspired by Dawn's abstract paintings, is united with a dazzling and expressive color palette. The outcome is a union of unexpected pops of saturated hues, surprising textures, and luxurious details, on a handcrafted canvas. Be bold and dare to mix and match, to create a one-of-a-kind touch of bohemian luxury.

OCEAN BLUE

DEEP BLUE SEA

Our Ocean Blue collection dives deep into multitude shades of blue to create unique pieces inspired by the colors of the ocean. Within the exquisitely handcrafted collection, contemporary patterns meet saturated colors, combining the soothing qualities of the color with lively design.

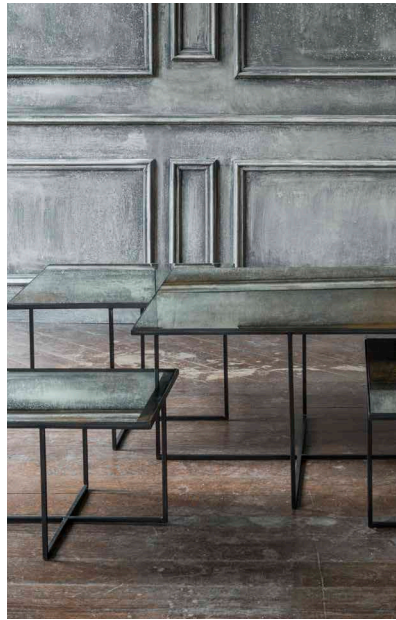

MINI TRAYS

SMALL PLEASURES

Despite its small size, the mini tray packs a lot of patterns and textures into its small frame. Organic swirls of colors and luxurious gold-leafing are enclosed neatly within slim edges, framing the patterns and textures like a work of art. The mini tray's compact size allows for versatility.

Placed in the hallway on a console, it is a key holder. In the dressing table, it is a jewelry tray, and on the coffee table, it is a decorative item. All good things come in small packages, and the mini tray is no exception.

SURFACE COFFEE TABLE

SURPRISING ON ALL LEVELS

The Surface coffee tables are defined by an intersecting and overlapping design, which comes to life through intriguing materials and different heights and widths. Due to these varying attributes, this quintuple set can be repositioned easily to create a surprising and enriching scene. Each size is available individually, so how you set the stage and what kind of vibe you create, is entirely up to you.

COMPACT SIDE TABLES

MIDNIGHT CRUSH

Packing a lot of flair in its frame, the Compact Side Table's small but robust frame makes this piece supremely versatile. In the living room, it serves as a functional side table. Faithfully perched next to the bed, it becomes a nightstand, and in the bathroom, it is utilized as a pedestal for plants.

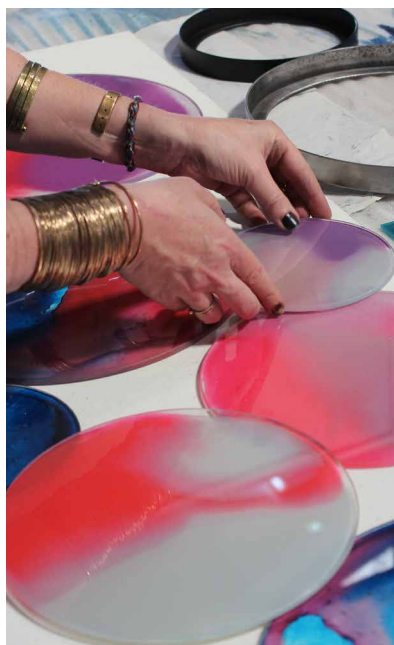

DAWN SWEITZER

Is a self-taught artist with midwestern sensibilities and a sophisticated eye for style. Founder of NOTRE MONDE, she draws her inspiration not only from her extensive travels all over the world, but also from her design projects in Europe. She now lives in North Carolina.

Whether it is a song, a book, fashion, the texture of a paint or people she loves, her surroundings are her source of inspiration. She selects things that speak directly to her, lending authenticity to her work. The NOTRE MONDE brand is a direct expression of Dawn's immersion into various cultures and the diversely meaningful ways in which people embrace the good life.

A handwritten signature of Dawn Sweitzer, written in a cursive, flowing style.
