

## Signature Sound and Simplicity

The CX 80U and HD 400U bring high-performance digital audio to the modern listener

**Hanover, Germany – January 26, 2026 – The Sennheiser brand today announces the CX 80U earbuds and HD 400U headphones**, bringing a connectivity update to their fan favourite CX 80S and HD 400S. Both models feature the USB Type-C connection that ensures a direct, low-latency lossless path from the source to the ears. With support for 24-bit, 96 kHz digital audio playback, each bring renowned Sennheiser sound to practically any modern mobile phone, tablet, handheld game console, or PC.

*“The HD 400U and CX 80U are made for anyone who wants to just plug in and go—ensuring that convenience never comes at the expense of sound quality,” said Christian Ern, Senior Product Manager. “By combining our acoustic heritage with the ubiquity of USB-C and an in-line remote mic, we’ve made it easier than ever to get the Sennheiser sound from the entertainment and productivity apps that we rely on every single day.”*

### HD 400U

The compact HD 400U headphones carry forward the legacy of the HD 400S, known for its bass-driven acoustics and backpack-friendly portability. The closed-back design provides exceptional passive isolation, ideal for focused listening at home, work, or school. The

included storage pouch and detachable cable keep them tidy during transport, ready for a listening session anytime, anywhere.

### **CX 80U**

For those that prioritise a compact, in-the-ear fit, the CX 80U picks up where the CX 80S left off with balanced-yet-punchy sound that isolates the listener from the distractions of the outside world. Three sizes of ear tips ensure a snug, comfortable fit whether you are tackling a research paper, multiplayer battle royale, or a new album from your favourite artist.

## Compatibility & Availability

The USB interface for each offers class compliant, plug and play compatibility for iOS, iPadOS®, Android™, ChromeOS™, MacOS®, Windows®, SteamOS devices and more. Both the CX 80U and HD 400U utilize a MEMS microphone for low-noise, full-range voice pickup in a compact footprint.

The CX 80U (MSRP £34.99 / 39.90 EUR/ \$39.95 USD) and HD 400U (MSRP £69.99 / 79.90 EUR / \$99.95 USD / \$139.95 CAD) are available today from authorised dealers and [sennheiser-hearing.com](http://sennheiser-hearing.com).

## About the Sennheiser Brand – 80 Years of Building the Future of Audio

We live and breathe audio. We are driven by the passion to create audio solutions that make a difference. This passion has taken us from the world's greatest stages to the quietest listening rooms – and made Sennheiser the name behind audio that doesn't just sound good: It feels true. In 2025, the Sennheiser brand celebrated its 80th anniversary. Since 1945, we have stood for building the future of audio and bringing remarkable sound experiences to our customers. While professional audio solutions such as microphones, meeting solutions, streaming technologies and monitoring systems are part of the business of Sennheiser electronic SE & Co. KG, the business with consumer devices such as headphones, soundbars and speech-enhanced hearables is operated by Sonova Holding AG under the license of Sennheiser.
