

SENNHEISER AMBEO SOUNDBAR FACTSHEET

The key features

- Immersive 5.1.4 sound from an all-in-one device that delivers incredibly deep bass without an additional subwoofer
- Optimized listening experience for every room with easy calibration via the included external microphone
- Compatibility with Dolby Atmos, DTS:X, and MPEG-H
- Upmix Technology to recreate stereo and 5.1 content in immersive 3D
- Five different presets to adapt the sound frequencies and 3D characteristics according to content type, with presets for movie, music, sports, news, and neutral
- Easy adjustment of acoustic settings and presets, and selection from three different AMBEO Modes (light, standard and boost) via Sennheiser's Smart Control App for iOS and Android
- A total of 13 drivers including 6x4" long throw woofers for deep bass, 5x 1" alloy fabric dome tweeters and 2x 3.5" top-firing speakers
- Connectivity options include built-in Google Chromecast, Bluetooth and HDMI eARC/CEC
- Flexible input management with 1x HDMI eARC, 3x HDMI, 1x Optical and 1x AUX (RCA) inputs
- High frequency response of 30Hz (-3dB) – 20,000 Hz and 26Hz (-6dB) – 20,000 Hz
- New features will be added via WiFi and Sennheiser Smart Control updates
- Sleek, premium design with lacquered and brushed aluminum surface
- Available from May 2019 priced at 2,499 EUR (MSRP).
