

MOMENTUM TRUE WIRELESS FACTSHEET

- Sennheiser's MOMENTUM True Wireless Bluetooth earphones set a new benchmark for audio quality, with characteristic MOMENTUM style and comfort
- Superior audio quality is assured by Sennheiser's audiophile 7mm dynamic driver technology
- Enjoy hassle-free connection via the latest Bluetooth codec technology, with AAC as well as Qualcomm aptX™ compatibility
- Effortless interaction: Fast access to voice assistants on smart devices such as Apple Siri or Google Assistant via 1-tap AI voice access
- High-quality voice pickup for phone conversations and AI voice assistants is ensured by 2-mic-beamforming technology
- Improved situational awareness: The Transparent Hearing feature lets you hear your surroundings and have conversations without removing the earbuds
- Experience your media content with lip-synced audio thanks to aptX™ Low Latency compatibility
- Use your headphones all day long: The 4-hour battery life can be extended to more than 12 hours with on-the-go charging via the compact case with integrated power bank
- Conserve energy with the auto-on/off and smart-pause feature which detects when the ear buds are stored or not in use
- Personalize your audio experience with the built-in audio EQ via Sennheiser Smart Control app which will be released once the product is available from mid-November
- Style and durability: the finely sculpted, splash-resistant earphones have been beautifully finished with metallic details on the outer face as well as gold-plated charging pins and magnets
