TORSO PROTECTOR

The highlight of the completely redesigned PROTECTION WEAR range is without a doubt the TORSO PROTECTOR. With the new LITESHIELD FLEX technology, it offers excellent protective qualities coupled with unparalleled freedom of movement - without ever compromising in regard to safety. With the waterproof TORSO PROTECTOR PIN PACK, EVOC has made an exclusive development, that seems quite obvious, but still is exceptional.

In the last 20 years, we have travelled to more than 50 destinations – always in search of the best trails and most amazing powder runs. Finding the right backpacks and bags that met our requirements in terms of functionality, protection and quality was difficult. So, we started developing equipment according to our personal preferences. Since 2008, EVOC has stood for evolution and the concept of high-quality, sporty backpacks, bags and luggage – with a particular focus on proper protection.

The **TORSO PROTECTOR** is a special back and chest protector that can be worn over the bike jersey. Boasting EVOC's newly developed LITESHIELD FLEX protector technology, it provides the highest Level 2 protection, 95% shock absorption, and exceptional flexibility. The result: maximum safety and incredible mobility. A bold grid construction allows efficient ventilation, thereby adding another level of comfort. Furthermore, LITESHIELD FLEX is extremely temperature-insensitive, offering the same functionality from -20 to +40 °C. In a nutshell, even if your protector is exposed to direct sunlight during a break, the material won't get too soft and will continue to absorb impacts as efficiently as ever. The TORSO PROTECTOR is ergonomically pre-formed and has adjustable straps that allow it to fit bodies of almost every size and shape. It is easy to clean, dries fast, and has room on the chest protector for an action cam. It can also be combined with the TORSO PROTECTOR PIN PACK WP 1.5 so you can store tools, snacks, and more.

- Temperature-insensitive LITESHIELD FLEX protector technology with maximum protection (Back: EN 1621-2, Level 2-certified and chest: EN 1621-3, Level-1)
- Ultimate comfort thanks to exceptional flexibility and 3D ventilation
- One size fits all: suitable for body heights from 1.55 m to 1.98 m
- Adjustable straps with magnetic buckle
- Can be combined with TORSO PROTECTOR PIN PACK WP 1.5

The TORSO PROTECTOR PIN PACK WP 1.5 is a bag that was specifically designed for the TORSO PROTECTOR. It can easily be attached to the back of the protector via the FIDLOCK magnetic buckles and has enough storage for the most important trail necessities, such as your mobile phone, tools, and snacks. It's made of abrasion-resistant fabric that's easy to clean and PVC- and PFC-free, and it's ready to tackle rain, mud, and dirt thanks to its sealed seams, waterproof fabric, and waterproof zipper.

- Special bag for the TORSO PROTECTOR
- Can be attached to the back of the protector via FIDLOCK magnets
- Waterproof and easy to clean
- PVC- and PFC-free
