

Press release

Digital planning portal for architects and planners: dormakaba presents "Orbit360" at the digitalBAU 2020 trade fair in Cologne

Ennepetal, 11 February 2020 – At the digitalBAU 2020 trade fair in Cologne from 11 to 13 February 2020, dormakaba will be showing its new Orbit360 digital planning portal in Hall 7, Booth 410. With this new, web-based collaboration platform, architects and planners can more easily plan "door" projects as well as manage and merge the relevant data.

Dr Kai Oberste-Ufer, Senior Manager Planning at dormakaba, commented: "We're very pleased to be able to show a first version of Orbit360 here in Cologne. We expect valuable feedback and advice from our trade fair guests, which will help us enormously with the ongoing development of this platform."

Orbit360 simplifies and optimises door list management throughout the building's lifecycle and enables project-based communication with everyone involved. On request, planning proposals can be expanded with the appropriate dormakaba components. Orbit360 works with 3D BIM models, 2D CAD plans and also without any graphical representation.

With Orbit360, the building can be viewed with a focus on door planning.
Features at a glance:

- The portal extracts data from 3D BIM models and optimises data management.
- It provides communication and collaboration features such as comments, notifications and file download.
- Orbit360 integrates existing dormakaba services such as Solution Finders or Configurators. The open platform also enables the integration of future services and tools.
- The portal can handle BIM formats such as Autodesk Revit and IFC files, 2D CAD formats as dxf or dwg as well as documents (pdf) and image formats.
- The data structures, such as for door lists, can be individually adapted to customer needs and existing processes.

This communication contains certain forward-looking statements including, but not limited to, those using the words “believes”, “assumes”, “expects” or formulations of a similar kind. Such forward-looking statements are made on the basis of assumptions and expectations that the company believes to be reasonable at this time, but which may prove to be erroneous. Undue reliance should not be placed on such statements because, by their nature, they are subject to known and unknown risks, uncertainties and other factors which could lead to substantial differences between the actual future results, the financial situation, the development or performance of the company or the Group and those either expressed or implied by such statements. Such factors include, but are not limited to:

- general economic conditions,
- competition from other companies,
- the effects and risks of new technologies,
- the company’s continuing capital requirements,
- financing costs,
- delays in the integration of the mergers or acquisitions,
- changes in the operating expenses,
- currency and raw material price fluctuations,
- the company’s ability to recruit and retain qualified employees,
- political risks in countries where the company operates,
- changes in applicable law,
- realization of synergies,
- and other factors identified in this communication

Should one or more of these risks, uncertainties or other factors materialize, or should any underlying assumption or expectation prove incorrect, actual outcomes may vary substantially from those indicated. In view of these risks, uncertainties or other factors, readers are cautioned not to place undue reliance on such forward-looking statements. Except as required by applicable law or regulation, the company accepts no obligation to continue to report or update such forward-looking statements or adjust them to future events or developments. It should be noted that past performance is not a guide to future performance. Please also note that interim results are not necessarily indicative of the full-year results. Persons requiring advice should consult an independent adviser.
