

HEAR THE UNHEARD

聆听未闻之声

Product Brief

IM4 Open-Back In-Ear Monitors

Long-Lasting Comfort in Sound and Fit.

01 \ Product Story

Thank you for being one of the first to experience IM4 — Fosi Audio's very first HiFi in-ear monitors!

Your feedback and support mark the beginning of our pursuit of pure, uncolored sound.

The IM4 marks our very first step into the world of IEMs. With it, we set out to create a product that embodies Fosi Audio's design language inside and out in both aesthetics and sound.

The name "IM4" resonates with the phrase "I am for" — a declaration of support, advocacy, and identity. It is open-ended, inviting participation and interpretation. For us, it reflects Fosi's spirit of openness, listening closely to every user's voice.

For you, it's a blank space to fill in, a way for everyone to express their own identity.

In terms of design, our team developed three artistic interpretations of the name "IM4."

After gathering votes from enthusiasts worldwide, we chose the version that resembles the letter "F" as the final logo.

The IM4 features an open-back acoustic design and a 10mm beryllium-coated diaphragm driver, delivering a spacious soundstage and rich musical detail — a true reflection of Fosi's brand spirit: "Hear the Unheard."

Our tuning team went through multiple rounds of adjustments, collecting feedback from exhibition attendees and seasoned reviewers, all to create a balanced, relaxed and versatile listening experience.

The IM4 is a milestone in our journey of earphone development — our first step, made with sincerity and care.

And this is just the beginning.

More earphones are on the way, ready to meet you.

May you enjoy it, and may it stay with you through every note.

02\ A Solid Foundation for Lasting Clarity

Engineered for clean, even response that avoids harsh peaks or listener fatigue.

10mm PU Beryllium-coated Diaphragm

PU ensures smooth mids and punchy lows, while the beryllium coating adds clarity and sparkle to high frequencies.

N52 Dual-Magnet

A powerful, stable magnetic field improves control and speed, delivering cleaner sound with better dynamics.

OFC Silver-Plated Cable

Delivers cleaner, more detailed sound by reducing signal loss and interference with high-purity silver-plated wiring.

03\ Effortless Acoustics with a Natural Flow

Gentle tuning and natural acoustics help the sound breathe freely.

■ Dual-Chamber Acoustic Design

Dual chambers control airflow and tuning pressure, enhancing clarity, balance, and long-term listening comfort.

■ Open-Back Design

Minimizes internal reflections and pressure buildup, creating a more open, natural sound with reduced fatigue.

■ Acoustic Damping

Damping materials absorb unwanted resonances, smoothing out harsh peaks and keeping the sound relaxed and clean.

■ Meticulous Tuning

Tuned with listener feedback to ensure smooth, balanced sound across genres—ideal for relaxed, extended sessions.

04\ Ergonomic Fit for All-Day Comfort

Lightweight and adaptive for pressure-free wear.

■ Refined Metal Finish

CNC-machined and anodized for a smooth finish that feels cool and comfortable against the skin.

■ Lightweight Construction

Each earbud weighs just 7g, reducing pressure on the ear for comfortable, fatigue-free listening even over long hours.

■ Ergonomic Shell

Contoured to match a wide range of ear shapes, ensuring a secure, pressure-free fit that stays comfortable all day.

05\ Customizable Elements for Evolving Taste

Modular parts allow you to personalize and refine your sound.

■ Sound Nozzles

Swap between aluminum and brass nozzles to shape your sound, smoother highs or enhanced bass and treble.

■ Tuning Ear Tips

Three tuning styles: balanced, bass, and deep bass, letting you tailor the sound while ensuring a comfortable fit.

■ 2-Pin 0.78mm Cable

Switch between 3.5mm and 4.4mm cables to match your gear and listening needs with ease.

06\ Minimalist Aesthetics

07\ Specifications

Shell Material	6063 CNC Aluminum Alloy
Driver Unit	10 mm N52 Dual-Magnet Dual-Cavity Dynamic Driver
Diaphragm	PU Beryllium-coated Diaphragm
Sensitivity	109dB
Impedance	21Ω
Frequency Response	20Hz-20kHz
Cable	4-core 392-strand 5N OFC Silver-plated Copper Cable
Connector	2-PIN 0.78mm
Audio Jack	3.5 mm Gold-plated Plug
Weight (per earbud)	7g ±0.5g
Weight (incl. cable)	38g ±1g

About Fosi Audio

Established in 2017, Fosi Audio has been committed to developing, manufacturing, and selling high-quality HiFi audio products. The brand name FOSI is shaped by four core principles:

- Foresight, thinking further ahead;
- Openness, embracing users' voices;
- Sincerity, serving you wholeheartedly;
- Innovation, upholding technical excellence. We've crafted a home and personal HiFi system—including home audio amplifiers, preamps, DACs, speakers, headphones, headphone DAC amps, etc. Fosi Audio has quickly become a rising star in the HiFi audio world, earning recognition from audiophiles globally, with a distribution network spanning over 100 countries and trusted by millions of music enthusiasts across the globe.

We believe every sound matters. With cutting-edge innovation, we make every note clear, real, and full of emotion, empowering you to "Hear the Unheard". Driven by our mission to redefine HiFi with unmatched value, Fosi Audio continues to fuel its passion for the HiFi industry, ramp up R&D efforts, and co-create new HiFi equipment with users. We pledge to bring more amazing HiFi gear with cutting-edge technology, innovative design, and premium quality to audiophiles worldwide.
