About MedPharmPlast Europe

MedPharmPlast Europe is a sector group of EuPC created in 2014 by and for companies involved in the whole supply chain of plastic medical devices and pharmaceutical packaging in Europe.

MedPharmPlast Europe assists companies in these industry sectors by keeping them informed about the latest developments in European regulations and their impact on the medical device and pharmaceutical packaging plastics value chain.

As an expert group with other trade bodies, MedPharmPlast Europe furthermore represents the interests of the industry to the European legislators and tries to arrive at regulations that are both workable and protect the patient.
