

Simplify student uploaded submissions with the Gradescope mobile app

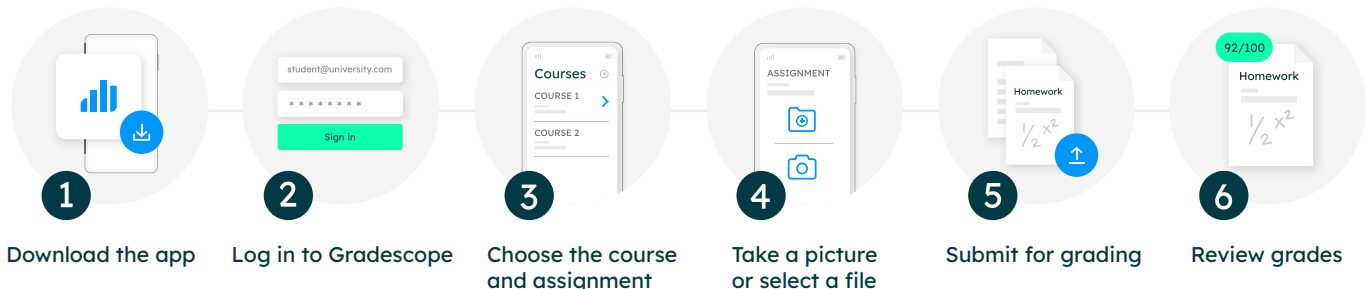

Eliminate the challenges associated with locating a scanner or using a third party app for student-uploaded submissions. With the Gradescope mobile app, students simply take a picture of their work or upload a file from their phone.

Streamline student submissions

Give your students a better way to upload their work to Gradescope. The student mobile app integrates into their day-to-day life with the convenience of the phone in their pocket.

Submitting is simple

Protect your students' privacy

Eliminate the risk of breaching student privacy by relying on third-party applications to upload student work. The Gradescope student mobile app keeps all student work safe and secure within Gradescope, ensuring student security and privacy.

Help your students simplify turning in their assignments by encouraging them to download the Gradescope mobile app on the App Store or Google Play
