**Club Fígaro** is a non-profit associative project created in 2009 by an outstanding group of Spanish hairdressing professionals. The main objective pursued by **Club Fígaro** is the social recognition of the profession, and this is articulated with the creation of the Spanish Hairdressing Awards, which have been held since 2010 and value the photographic works of hairdressing trends from the main Spanish firms. The transparency and prestige of the Awards is guaranteed by the appointment of an external jury, made up of five prominent names in international hairdressing, who vote individually and independently on the collections presented anonymously. The winners of the different categories of the Awards are announced during the Fígaro Catwalk, an event that has already become the great annual event for Spanish hairdressers. The official sponsor of Club Fígaro is **Revlon Professional**. Finally, Club Fígaro has eight media sponsors, the main professional beauty magazines and portals in Spain.
