*perfect choice for those who want salon-quality results without the time-consuming effort,”* - shares Eliza Pineda, in-house haircare expert at Mayraki Professional.

During winter, indoor heating, frequent hat-wearing, and exposure to harsh weather conditions often leave hair needing TLC. Curly hair is more susceptible to damage during this season, leading to increased frizz and dryness, which makes it challenging to care for curly locks.

The shift from winter to spring is an ideal time to revitalize and restore your hair with Mayraki Professional's Kera-Smooth Leave-in Keratin Conditioner. This transformative leave-in treatment offers gentle repair, deep nourishment and smooth definition for your hair. The convenient solution will help you reclaim the vibrancy and beauty of your curls just in time for warmer months ahead.

From hydrolyzed keratin for strength to burdock root for nourishment, gotu kola for soothing, and lotus seed for shine, the Kera-Smooth Leave-in Keratin Conditioner is a gentle approach to daily care that works for all hair types. With no harsh chemicals, this conditioner provides essential nourishment and protection, aiding in curl definition and accentuating the beauty of each strand.

Mayraki Kera-Smooth Leave-in Keratin Hair Lotion (\$49.00) is available on Mayraki Professional's [official website](#).
