

INTRODUCING THE

ROUTT ESC

EMBARGOED UNTIL JANUARY 25, 2022

YOUR NEWEST ESCAPE ROUTE

MOOTS

NEW

ROUTT ESC

NEW YEAR. NEW BIKE.

Happy New Year – we’re all back at work, going through eggnog withdrawals and in need of a momentary escape. Well, your friends at MOOTS have one for you. We’d like to introduce our new adventure gravel bike, the RouTT ESC. It’s got 2.4” tires, drop bars and that titanium infused ride that we’re known for.

So, sit back, relax and enjoy the post-holiday escape to deep gravel and lumpy two-track. The MOOTS ride is always better than the destination.

WHAT IS IT?

Adding to the legendary RouTT lineup is the RouTT ESC. The RouTT ESC is an escape ready drop bar bike that can hold up to a 2.4” tire and take you well beyond the far-off routes you’ve been dreaming of. Leaving your front door on a bike that can link your favorite routes together as they turn from pavement to gravel to hidden gems of single-track and back again is what the ESC is all about. The ESC is equipped with three frame bottle locations as well as two triple pack mounts on the fork that allow you to get lost without wondering about the next refuel stop. Wide gear range and a 38 tooth chainring allow big roll out and gears to climb where the goats reside. An oversized tubeset, and massive S-bend fastback seat stays give this bike backbone to perform across all terrain, loaded or unloaded.

THE BOTTOM LINE:

**DEEP GRAVEL,
LUMPY TWO-TRACK
AND SINGLE-TRACK.
THE RIDE IS BETTER
THAN THE DESTINATION.**

HELP US SHARE THE NEWS (WHEN IT'S TIME!)

Thanks for taking the time to learn about the new ESC. Secrets are hard to keep, especially this one. On January 25, you’re welcome to scream loud from your nearest backcountry gravel road about the ESC. We’ve put together a collection of photography, a video and a few other details for your use. Like us, you’re thinking about where the ESC could take you. As one of our selected partners, you have first dibs on testing. So, start to think about your personal ride on this incredible bike.

Thanks again and enjoy the escape.
