

BOBBI BROWN INTENSIVE SKIN SERUM FOUNDATION

RADIANCE, REDESIGNED.

Our beloved Intensive Skin Serum Foundation now features a pump so that you always get the perfect dose of radiance, moisture, and UV anti-aging protection.

Unveil your most radiantly luminous skin with Intensive Skin Serum Foundation. Formulated with blend of extracts including Lychee, Green Apple, and THM herbs, this precious serum foundation captures the energy of our Active Skin Energizing Complex fueled by Cordyceps and Artemia. High level SPF helps protect against collagen damaging UV rays. Sustained moisture over time improves skin condition, helping it become more energized and glowing.

The original formula partners with a new easy-to-use pump to infuse skin with instant moisture, leaving skin youthfully radiant and beautifully even toned.

22 Skin-true SHADES:

As an authority of skin color matching with a unique focus on skin's undertone, Bobbi Brown foundation shades are made with the ideal ratio of tone-balanced pigments to replicate the look of real skin with a multi-dimensional finish.
