here there is smoke, there's fire. **Smoking Hot** ignites confidence and leaves a one-of-a-kind lasting impression, so hot it hurts. With instant impact and long-lasting allure, it sets the party on fire. This KILIAN PARIS fragrance creation is a caramelized delight. It features Kentucky Tobacco absolute—an ultra-rare ingredient in modern perfumery—infused with a hookah drag of Apple-flavored shisha tobacco and wildly intense Bourbon Vanilla.

Uninhibited, modernity drives the **Smoking Hot** inspiration. “*There is not one way of being hot. Maybe you are good, maybe you are bad. Maybe you are better when you are bad... Maybe you like to be you, or a different version of yourself. At night, there are no rules but one, just be smoking hot!*”, Kilian Hennessy.

Working with Perfumer Mathieu Nardin, Founder Kilian Hennessy takes **Smoking Hot** to that space evoking everything from European clubs to Eastern hookah lounges—spaces where there is no good, no bad and certainly no rules.

Smoking Hot opens with forbidden fruit: a round Apple Hookah flavor blends with warm Cinnamon Bark essence. In a slow burn, notes of fire-cured Kentucky Tobacco absolute emerge. While Tobacco accords are a mainstay in modern perfumery, KILIAN PARIS dares the rarity of Tobacco absolute.

Harmonized with Oakmoss, this resonant Tobacco absolute leads into a Bourbon Vanilla, with balsamic tonalities. Also known as a Pure Jungle essence™ Bourbon Vanilla, it is of the highest quality Vanilla available, especially intense, and textured. When crossed with Orcanox™, a powerful sensuality comes full circle.

For men with intoxicating confidence, and women who love to dip into what some consider a man's olfactive wardrobe, **Smoking Hot** redefines what a smokey scent is today, going almost where it's too hot to handle.
