PH194319.JPG

PH194320.JPG

It's that time again. Time to open your home to friends and family for get-togethers of all kinds. Time to put your home in focus and inject it with new energy – updated and styled to suit your personality and your life.

Whether you like bold colour and patterns or prefer a crafted and homier look, IKEA can help you find your style with clever storage options, plush textiles and inspiring combinations guaranteed to turn your home into this season's star.

So, go on – amplify your style no matter the beat you follow.

Style expression:

Turn up the tempo

It's time to switch up the beat of your home. Thread in red, add a dose of black and live to a different beat.

Warm, vivid and bold, red and black lift neutrals from sedate to sizzling. It's eye-catching and energetic. They add that extra rhythm to the soundtrack of your home.

Don't be shy. Throw in big bold prints with clean lines and natural materials like rattan, wool and blond woods.

Turn up the volume on your personal style.

A delicious dose of red that's perfect for the party season

We love portable tray tables. They're lightweight and easy to move to wherever you need them – which is exactly what we need when it's time for more guests and get-togethers.

This time of year when you're entertaining even more, don't settle for neutral – bring in

a delicious dose of pizzazz with a red GLADOM tray table. It's that little extra umph that can help turn up the tempo of your home and make entertaining a breeze.

Pendant lamps and a metal chair in red add a deliciously energising buzz and raise the pulse when paired with rattan, blond wood and white walls.

The red trim and bold, modern art-inspired blocking on the RASTPLATS rug quickens the tempo and elevates the room to electrifying.

We don't waste leftover wood

We put it to good use instead.

We used wood recycled from furniture production to create SMÖRLING serving trays and SÅPÖRTMÅL chopping board.

Products made from recycled wood have the same features and beauty of virgin wood at a lower price for IKEA customers.

And while there may be variations in wood pattern, it only adds to the charm and personality of these products.
