## A warm welcome to February at IKEA

The days are still chilly in many parts of the world, but the energy and excitement of springtime is already in full bloom. The latest arrivals at IKEA are a tribute to this season: both its lighter, fresher colour palette and the closeness to nature that we miss in the winter months. From laptop stands to cabinets and vases, elegant simplicity is the golden thread throughout. Clean lines and uncomplicated forms allow functions or materials, and often both, to be in focus. Keep an eye out for natural fibres like birch, bamboo and rattan.

The best bit of spring is the anticipation of new things to come, and the essence of this range is no different. Ready to step inside and see for yourself? Inspiration awaits!

## LINNEBÄCK Easy chair

### Designed for (and by) the many people

LINNEBÄCK easy chair is the result of an exciting design collaboration between IKEA and our customers in Sweden, Denmark and China. Why? Because we understand that the people who know our products best are those who live with them every day. By listening to their needs and acting on their feedback, we were able to create a comfortable, stylish and budget-conscious chair that's a breeze to bring home.

**A true all-rounder**

Our customers told us that high quality, great style and a low price were important. LINNEBÄCK easy chair delivers all three. It's a chair designed with time-enduring looks and long-lasting materials, at a price that as many people as possible will be able to afford.

*“It’s always best to ask,  
instead of assuming what  
customers want.”*

**Ditte Bruun Pedersen** / innovation, exploration & ideation leader

**From feedback to finished product**

At the Shanghai store alone, 100 IKEA customers were interviewed. From this, the product development team got all the input they needed to finalise the design of LINNEBÄCK and see if it truly addressed customers’ needs.

The team investigated both the general perception of the chair to understand where and how it would be used, as well as details of the specific prototypes to learn about size, form, material and price expectations.

## BJÖRKÅSEN Laptop stand

### The wherever, whenever workspace

BJÖRKÅSEN laptop stand creates a compact, comfortable working environment for a range of activities, thanks to its tiltable surface and adjustable heights. It's light enough to move around and small enough to hide when not in use, making it a really smart choice for homes low on space.

## SINARP/HASSLARP Kitchen fronts

### Feast your eyes

Great food is all about quality and attention to detail, and kitchens are no different. SINARP/HASSLARP is a new family of kitchen fronts and doors in a dark wood expression, teaming up for a dramatic and refined finish.

**HASSLARP door 53,-/each** Brown patterned 904.047.80

**SINARP door 34,-/each** Brown 704.041.54

Handles sold separately.

**Every kitchen is one of a kind**

SINARP doors and fronts bring together a rich brown oak veneer with a solid wood edge. The natural variations of colour and grain in the wood are always embraced, and mean no two kitchens will be exactly alike.

Handles sold separately.

PH176090

**Delicious details**

You'll know when you've spotted a HASSLARP door, thanks to its bold chevron pattern in varying tones of warm, dark wood. It's a simple, yet unexpected way to add a burst of extra flavour to the kitchen.

## VÅRFINT Tray

### Making time for little moments

Available for a limited time only, VÅRFINT tray is made from peeled rattan and bamboo, and embodies everyday beauty with a handcrafted feel. Its base features an eye-catching fishbone pattern, with handles created from a single, rounded hoop that make it easy to carry wherever you need it.

**VÅRFINT tray 9,99** 104.812.25

**Not just lovely to look at**

We love the organic, crafted feeling that bamboo brings, but there are many more reasons why this natural material gets our vote. Did you know that bamboo is stronger and more flexible than most types of wood, thanks to its longer fibres? It even produces twice as much oxygen as other wood species, and is one of the world's fastest-growing raw materials.

**VÄRFINT tray 9,99** 104.812.25

## RÖDASK Rug

### Fashion for your floor

RÖDASK rug is all about the details. It has been jacquard-woven in cotton for an interesting, tactile structure, while the contemporary graphic pattern warms and softens any space. It's an easy-going companion for all types of flooring, even those with underfloor heating.

### Complete the look

Take the bold expression of this rug one step further by pairing it with RÖDASK curtain and RÖDASK cushion cover.

**Softer underfoot - with lower impact**

Here's proof that making a bold style statement and being mindful of the planet can go hand in hand. RÖDASK rug is made from a soft yet hardwearing blend of cotton and cotton-chenille from more sustainable sources, and nothing more. With no backing, it's easy to fold and put away when not in use.

## ÄLVSTARR Lampshade

### **Diva? No doubt!**

ÄLVSTARR lampshade is anything but low key – and that’s the best thing about it. Its ultra-modern, wavy shape is levelled up with a double-sided chrome finish. Put together, you get a lamp that dances with the light before directing it down – giving the room an inviting, atmospheric effect. Dare to hang it over your table, or let it shine as a showpiece in your living room.

**ÄLVSTARR lampshade 30,-** 604.040.98

PH176062

PH176067

**Drama-free assembly**

For designer Paulin Machado, creating an intricate, attention-grabbing lamp wasn't enough. It also needed to ship well and be easy for customers to assemble on their own. As a result, ÄLVSTARR comes as just four flat pieces, which are easily connected using nothing but hook and loop fasteners. Clever!

**ÄLVSTARR lampshade 30,- 604.040.98**

*“ÄLVSTARR feels both retro and futuristic at the same time, and looks just as great even when the light isn’t on!”*

**Paulin Machado** / designer

**Fashion meets home furnishing**

Designer Paulin Machado’s background in textiles was a great influence on ÄLVSTARR. The initial prototypes of the lamp were made using fabric and paper, just like garment-making, as Machado explored ways to create the lamp’s dramatic shape and volume.

## RÅDFRÅGA Decoration, set of 3

### Easy hide, easier seek

This spring, we're saying farewell to the days of hunting high and low for the little things we often lose track of. Enter these eggs: an endearing parking spot for your tiniest treasures. Ideal for the night stand, desk or coffee table (or anywhere, really!), they come in three sizes and colours with a playful, speckled finish.

## FNITTRIG Vases

### Time to shine

Let's be honest: regular white and grey just wouldn't have been quite as fun as the iridescent glaze on the two new FNITTRIG vases. The high-gloss surface reflects different colours from different angles - giving the vases a fresh, mother-of-pearl finish that's hard to look away from.

### Pick your blooms, pick your vase

FNITTRIG vases reference classic mid-century forms, with bold proportions that make them as impactful on their own as they are filled with your favourite flowers. The tall grey vase is ideal for long-stemmed varieties like lilies, while the white vase is best for tulips and other shorter-stemmed blooms.

## VÄGTÅG Quilt cover and 2 pillowcases

### Dreaming of times gone by

We know the pattern on this cotton, Japanese-inspired bed linen will hold its beauty over time, because it already has! The design is a reference to prints seen on vintage kimonos, and even mimics the traditional ikat dyeing technique that gives “kasuri” textiles their distinctly blurred or brushed appearance.

**VÄGTÅG quilt cover and 2 pillowcases 22,99**  
504.822.80

**In touch with tradition**

There was a time, not too long ago, when natural materials were the only materials. With buttons made from wood and 100% cotton from more sustainable sources, this bed linen is a nod to the ways of the good old days.

## KASKADGRAN Cushion

### Springtime is switch-things-up time

KASKADGRAN cushion brings the feeling of spring into your home at a low price. Its fan motif takes inspiration from classical Japanese pattern design, in a grey-turquoise hue that makes you think of warm days and a fresh ocean breeze. Pair with KASKADGRAN bed linen to complete the look.

**KASKADGRAN cushion 4,99/each** 004.866.81

PH176073

**Mindfully made**

That oh-so-soft filling inside KASKADGRAN cushion? 100% recycled polyester. Better yet, the cover is made of 100% cotton which, as with all IKEA cotton, is from more sustainable sources. Double thumbs up!

### Oh, starry night

LEN/LENAST collection of cot-sized quilt covers and pillow cases are both timeless and ageless, with the option of a dot or crescent-moon pattern in easy-to-coordinate grey and white.

### One colour fits all

The gender-neutral nursery is a fast-growing trend that looks set to stay, and it's not hard to see why. As homes and budgets get smaller, long-lasting baby products that can blend in, or be passed down, make great sense.

## UNDVIKA Baby monitor

### In safe hands

UNDVIKA baby monitor has been created with the great design and high safety standards that parents around the world have come to expect from the Children's IKEA range. It pairs clean, uncomplicated design with all the functions needed to keep an eye (or should we say ear!) on your baby.

### The simplicity you want, the smartness you need

UNDVIKA baby monitor comes as two simple components: a fixed baby unit and portable parent unit. The parent unit fits as snugly in a pocket as in the palm of a hand, but can also be hung from the rubber loop. The built-in alert system notifies you right away if contact with the baby unit has been lost, while the "talk-back" button lets you speak to and comfort your baby from a distance.

**UNDVIKA baby monitor 29,99** 804.667.40

PH176078

**Safe for babies, a lifesaver for parents**

The baby unit is just as smart. If you've looked high and low but can't find the parent unit? The handy "search" button can help with that. When you're not using the parent unit, simply dock it onto the baby unit for charging. You'll also know exactly where it is next time!

**Charlie Styrbjörn** / designer

**Hemp: a material of many talents**

Unbleached and undyed hemp is an ideal textile for products like NEREBY. Not only is it durable enough for everyday use in the kitchen, but it also has a soft and tactile texture that holds its rustic charm. Better yet, it's also a natural material, made from a plant that requires much less water to grow than cotton.
