## ALKALINE POWER

World's best alkaline battery

### MAIN FEATURES

- Extreme performance
- Longest lifespan in the history of Panasonic batteries
- Safer batteries
- High premium carton box packaging to store batteries safely

### QUALITY

- Precise manufacturing
- Increase of compact fine particles' density creating extra power
- New silver compounds unlocking even more power

### MOST SUITABLE FOR

**Power-hungry devices:** camera flash, computer mouse, game controller, robot, toy car

### SIZES

AA, AAA

Ultimate long lasting energy

### MAIN FEATURES

- Exceptional performance
- Higher efficiency = less batteries = less impact
- High Premium alkaline range

### QUALITY

- Improved structure
- Anti-Leak Protection
- Power protection for up to 10 years

### MOST SUITABLE FOR

**High to low & mid drain products:** drone, radio, robot, smoke detector, toy car, toy car remote control, walkie talkie

### SIZES

AA, AAA, C, D, 9V

Advanced long lasting energy

### MAIN FEATURES

- Reliable and dependable power
- Longer peak performance & longer battery life
- Improved discharge efficiency

### QUALITY

- Triple Tough Coating
- Anti-Leak protection
- Power protection for up to 10 years

### MOST SUITABLE FOR

**High to low & mid drain products:** baby monitor, kid's toys, computer mouse, flashlight

### SIZES

AA, AAA

Advanced long lasting energy

### MAIN FEATURES

- Reliable & dependable power
- Higher efficiency = less batteries = less impact
- Premium energy

### QUALITY

- Anti-Leak Protection
- Triple Tough Coating
- Power protection for up to 10 years

### MOST SUITABLE FOR

**High & mid drain appliances:** computer mouse, radio, robot, smoke detector, toy car, toy car remote control, walkie talkie, torch

### SIZES

AA, AAA, C, D, 9V

Long lasting energy

### MAIN FEATURES

- Excellent price versus quality ratio
- Standard alkaline range
- reliable, dependable power

### QUALITY

- Anti-Leak Protection
- High-quality materials
- Power protection for up to 10 years

### MOST SUITABLE FOR

**Devices with a medium to low current:** analogue scale, baby monitor, clock, radio, remote control

### SIZES

AA, AAA, C, D, 9V

### MAIN FEATURES

- Value for money
- Basic alkaline range

### QUALITY

- Anti-Leak Protection
- Power protection for up to 7 years

### MOST SUITABLE FOR

**Everyday low drain appliances:** analogue scale, baby monitor, clock, remote control

### SIZES

AA, AAA, C, D, 9V

## LITHIUM COIN

### MAIN FEATURES

- Reliable & long-lasting power
- High energy density
- Low self-degradation
- Long shelf life (up to 10 years)
- Reliable power in various temperatures (-30°C to +60°C)
- Superior leakage resistance
- No mercury added

### MOST SUITABLE FOR

laser pointers, calculators, car keys, heart rate monitors, medical devices, bike computers

### SIZES

CR1025, CR1216, CR1220, CR1616, CR1620, CR1632, CR2012, CR2016, CR2025, CR2032, CR2354, CR2430, CR2450

## CYLINDRICAL LITHIUM

### MAIN FEATURES

- Light weight material
- Lithium technology
- Low internal resistance
- Rapid recovery time
- Long shelf life (up to 10 years)
- Reliable power in various temperatures (-40°C to +70°C)

### MOST SUITABLE FOR

cameras, portable lighting systems, smoke detectors, film equipment, medical devices

### SIZES

2CR5, CRP2, CR2, CR123

## MICRO ALKALINE

### MAIN FEATURES

- Reliable & long-lasting power
- Value for money
- No mercury added

### MOST SUITABLE FOR

wearable devices, calculators, cameras, precision electronic equipment

### SIZES

LR1, LR1130, LR44, LRV08

## SILVER OXIDE

### MAIN FEATURES

- High energy to weight ratio
- Stable voltage
- Long lasting
- Wide range
- No mercury added

### MOST SUITABLE FOR

**precision devices:** quartz watches, bike computers, heart rate monitors for athletes, calculators, digital thermometers, precision electronic equipment

### SIZES

4SR44, SR1130, SR41, SR44, SR521, SR616, SR621, SR626, SR721, SR920, SR927, SR936

## ZINC AIR

### MAIN FEATURES

- Steady level of power
- High energy density
- Light weight
- Reliable power in various temperature conditions
- No mercury added

### MOST SUITABLE FOR

new generation digital hearing aids

### SIZES

PR10, PR13, PR312, PR675

## RECHARGEABLE EVOLTA

### MAIN FEATURES

- Reuse & recharge up to 500 times
- Ideal for heavy users
- High capacity
- Ready to use
- Resistant to all weather conditions (down to -20°C)

### MOST SUITABLE FOR

**frequently used high drain appliances:**  
digital scale, camera flash, torch, radio

### SIZES

AA, AAA

## RECHARGEABLE READY TO USE

### MAIN FEATURES

- Reuse & recharge up to 1.600 times
- Strong capacity
- Ready to use
- Resistant to cold (down to -20°C)

### MOST SUITABLE FOR

**high to mid drain appliances:**  
electric toothbrush, computer mouse,  
remote control, walkie talkie, radio

### SIZES

AA, AAA

## RECHARGEABLE DECT

### MAIN FEATURES

- Reuse & recharge up to 2.100 times
- For occasional users
- Stay charged up to 1 year
- Ready to use
- Resistant to all weather conditions (down to -20°C)

### MOST SUITABLE FOR

**mid- to low-current applications:**  
baby phone, cordless phone, remote  
control, computer mouse

### SIZES

AA

## eneloop

### MAIN FEATURES

- Pre-charged with Solar Energy
- Reduced wastage & less impact on environment
- Superior performance at 0 (down to -20)
- Purchase price offset by extra-long lifespan & reusability

### RANGE

eneloop, eneloop pro, eneloop lite

### SIZES

AA, AAA

# Panasonic

POWER YOUR DAY

## ZINC CARBON

Widely used worldwide

### MAIN FEATURES

- Simple & reliable technology
- Value for money
- No-added-lead product

### ONLY SUITABLE FOR

**low drain devices:**

clock, remote control

### SIZES

AA, AAA, C, D, 9V, 4,5V
