

Elon James Biography

I am Elon James, a Community Outreach Associate and National Ambassador attached to the Ministry of Education, Youth Sports, and Culture in Grenada. I am also a past youth parliamentarian and worked with the United Nations Country Coordinator attached to Grenada for six (6) months.

I grew up in the small community of Black Bay, St. John in Grenada. In the community, the adversities encouraged me to flourish and give back to the community to help foster youth and community development.

The quote that I have kept closest to my heart and daily work is a famous quote from the Prime Minister of Barbados, the Honourable Miss Mia Amor Mottley, S.C., M.P. It states, "Our people are our greatest resources, and we must never forget this". This quote helps with my advocacy for youth and community development in Grenada, the Caribbean region, and the world.
