TODAY AT 16h: WATCH THE UNVEILING OF THE ELEGANT ŠKODA ENYAQ COUPÉ iV - https://skoda-virtual-event.com/

The new ŠKODA ENYAQ COUPÉ iV is coming. You can watch the digital premiere of the new version of the Czech carmaker's electric SUV at 4 pm CET today. While the ENYAQ COUPÉ iV is a spin-off from the original SUV ENYAQ iV, it places even greater emphasis on emotion. The more dynamic design with elegant coupé lines is derived from the famous bright yellow VISION iV study that heralded ŠKODA's "eMobility offensive".

The world premiere of the ŠKODA ENYAQ COUPÉ iV is imminent! Cut the wait short and meet its creators on a special page: https://skoda-virtual-event.com/

The ŠKODA ENYAQ COUPÉ iV is the latest stage on this journey. The dynamically shaped body delivers improved aerodynamics, which in turn increases the electric car's range. Compared to the standard SUV model, the ENYAQ COUPÉ iV has a maximum range of 545 kilometers (in the WLTP cycle). At the same time, the new version remains the spacious and practical car that ŠKODA customers are used to. The luggage compartment is a massive 570 liters and the car is chock-full of Simply Clever features.

Like the standard ENYAQ iV, the new electric SUV is available with the unique Crystal Face front grille with 131 LED lights, and the coupé version's interior features the environmentally friendly materials we know from ŠKODA's first electric SUV.
