Overview

Embrace Autumn

When summer takes leave and autumn sneaks up on us, we feel the urge to take some of those last rays of sunshine home with us. Rich earthy colours, rustic natural materials, as well as modular sleek shapes and chrome accents mark this season's look. When combined well, they will turn your home into a refuge of cosiness. This is brought to life with elements like rugs, cushions and throws from traditional inspired designs and Italian modernist design in the form of modular cabinets, sleek bed frames and minimal accessories.

With sun-faded colours of Marrakech and clean elevated details of Milan, autumn is all about creating a warm inviting space with a modern twist.

BACKSÄLEN

1.5 Seat armchair

Fall in love with loveseats

Is it a loveseat sofa, a miniature settee or just a great big armchair? Whatever you like to call it, BACKSÄLEN armchair can be a cosy fit for two, or the ultimate relaxing destination for one.

Designed for maximum comfort with high armrests, combine the neutral-coloured BACKSÄLEN with warm earthy patterned cushions for a cosier look. The 1.5-seat armchair also offers additional peace of mind with its easy to assemble feature. And when it's time to move to another home, disassembly is just as smooth. Choose to pair your armchair with a two-seater or a three-seater sofa with or without a chaise longue.

More to love

The easy-to-remove and washable white Blekinge cover is made of 100% cotton from more sustainable sources. In line with our commitment to becoming a 100% circular by 2030, BACKSÄLEN armchair is also available in a natural Katorp cover which is made out of 80% cotton (from more sustainable sources) and 20% linen.

MÅNALG

Wall lamp

Natural selections

We love a good weave. And you should too, especially MÅNALG wall lamp, our first wall lamp made of sedge. No two pieces are alike as each lampshade is hand-woven by skilled craftspeople and made out of renewable sedge with a natural colour variation. This lamp will make an elegant addition to any hallway or room.

“Sedge is a fantastic natural material with a textile feel. I hope that the hand-braided structure with different layers and directions will spread both light and cosiness in your home.”

Inspired by a warm Nordic lifestyle

MÅNALG has been beautifully constructed using a hand-braided structure with different layers and directions. Within this 2-layer form lies a decorative lightbulb which spreads a soft diffused light across your space.

PEDERSBORG

Rug 133x195

Indulge in floor fashion

We're introducing a new flatwoven rug this season. PEDERSBORG rug is designed to be both visual and tactile thanks to its double layer construction. Made from natural and brown-dyed wool, the colour palette will make any room you place it in feel bigger and brighter.

Make wool choices

Made out of natural wool, this rug is a great choice for those who want a durable and long-lasting home decor piece without having to spend too much. We also recommend using a STOPP FILT rug underlay with anti-slip for increased safety and comfort, under the entire rug.

HILLEGÄRD

Throw

Pretty in pink

It may not be the first autumnal colour that springs to mind, but a splash of hot pink can do wonders to uplift the energy of your home. More than just a statement piece, each HILLEGÄRD throw tells a unique story.

As part of our long-term partnership with social entrepreneur Rangсутра, each HILLEGÄRD throw is handwoven by skilled artisans in India. The artisans are mostly women and a majority of them are shareholders in the company, which empowers and supports long-term livelihood, especially for those from rural areas.

Fashioning a better world

HILLEGÄRD throw is a handmade meaningful piece that revives traditional techniques mixed with modern design while providing a stable livelihood for rural artisans. Made from 100% cotton, from more sustainable sources, it is not only great to accessorise your home with but is also a more conscious and sustainable choice.

Creating change: one weave at a time

"Women who barely knew how to craft have learned and grown to become craft managers, to have a stake in the company, and have a chance to be part of the board."

Pioneering scalable and sustainable impact takes more than a vision. It takes bold, compassionate leadership. Today we're shining a spotlight on Sumita Ghose, founder of social enterprise Rangсутra, one of IKEA's partners in social entrepreneurship. Rangсутra employs over 1500 artisans, over 800 of them are involved in production for IKEA.

Under her leadership, Rangсутra has created opportunities for inclusive growth in rural India, through design, production and sale of fairly produced handcrafted products celebrating India's rich craft heritage.

Not only is she empowering women artisans through stable long-term employment, she is also breaking down societal taboos related to the mobility and role of women within and outside their homes in rural India.

"For these women the main benefit is to have regular work with dignity. This opens up their world. For those in rural India who do not own land or own a small patch of rain fed land with no irrigation facilities, survival with dignity, is a huge problem." – Sumita Ghose

MÅLA

Cardboard town template set & Artwork storage

Paint the town red

At IKEA we take playtime seriously and believe that playing is essential to a child's development. Art is a big part of playtime and comes in all shapes and sizes. Keep your arts and crafts stash well stocked with these new additions from the MÅLA family, the MÅLA cardboard town template and the MÅLA artwork storage. Both these pieces are perfect for gifting too!

Our most creative storage solution yet

As your child grows, you'll come to realise that there's never enough room on the fridge to display the countless number of paintings and drawings. Many times, the real problem isn't displaying the art, it's storing it. You want to save their masterpieces so they can look back as they grow, and so you can walk nostalgically down memory lane in a few years. And that's where the MÅLA artwork storage comes in. It fits many different sizes of paper.

Spark of creativity

IKEA designers Sarah Fager & Wiebke Braasch created the MÅLA artwork storage as a way for children to sort their projects into different tubes and label them. A smart and simple solution. Whether its challenging your children to create a whole new town out of the MÅLA cardboard town template or storing their favourite painting in the new MÅLA artwork storage, let their imaginations run wild with these new products.
