## SOLEIL NEIGE PARFUM

The peak of Soleil. Soleil Neige Parfum captures the breathtaking majesty of a mountain summit basked in solar light. An amplification of alpine splendor with exhilarating citrus, orange flower and warm musk. The Parfum is the most elevated, rarefied expression of the citrus floral musk scent.

An increased dosage of sun-kissed fruit facets creates a first impression of extreme vibrancy. Bergamot, grown exclusively for the exhilaratingly radiant scent of its peel, is only harvested in the winter months. The Parfum uses an amplified level of bergamot, its rich, sweet and fruity nuances revealed through a total fruit extraction process that captures the yellow-green citrus fruit in its entirety. Cold-pressed mandarin coeur brims with zesty exuberance. Vert de bergamot, created from a molecular distillation of the essence extracted from the peel, mimics the fruit's green freshness.

An overflowing bouquet of rose essences mingles with white florals and orange flower petals. A duo of rose absolutes magnifies the polar floralcy of the fragrance, recalling the elusive alpine blue hour, the fleeting moment when the sun is eclipsed by mountain peaks for a cool, seductive dusk. A warm contrast to this frosty sensuality is struck by the addition of orange flower that glimmers with a velvet-soft signature.

The presence of orange flower is elevated in the Parfum with orange flower absolute—an intoxicating, intensely fresh expression of the white floral.

Tones of amber, musk, resins and vanilla smolder with après-ski excitement. Musk delivers a clean textural element as radiant as the pure white, powdery snow. Equally as compelling is the silky quality of benzoin resinoid, with its vanilla scent, wood facets and cocoa nuances. A duo of vanillin qualities recalls the true, addictive character of pure vanilla bean. Styrax resinoid, a balsamic resin with delicate undertones of white floral and rose notes, enhances the floral heart. The smooth woody sensuality of Ambrofix™ underscores the sunlit luminosity of Soleil Neige Parfum. Fresh, ambery cistus labdanum mimics the opulent glow of a brilliant sun—its mesmerizing warmth rich with tones of honeyed leather and smoky woods.

The Soleil Neige Parfum fragrance is contained in a white Private Blend bottle with an engraved plaque. Carved with consummate craftsmanship, the 50mL flacon has the architectural look of a chess piece, adding monumental beauty to a dressing table or a grooming area.

Available for a limited time.

**Suggested Retail Price: €415 (50 ml)**
