

LONGINES SPIRIT ZULU TIME 1925

L3.803.5.53.6

To mark the 100th anniversary of the first Longines Zulu watch, the brand has released a special edition of its Longines Spirit Zulu Time model.

This commemorative watch features a 39-mm stainless steel case with a bidirectional rotating bezel adorned with 18K rose gold cap circular brushed insert. The matt black dial creates a striking contrast with the rose-gold coloured hands and indexes, treated with Super-LumiNova®. The dial is further distinguished by five stars elegantly positioned above the 6 o'clock marker, where there is also a discreet date window and the years "1925 – 2025" engraved in a subtle tone-on-tone finish.

A transparent case back reveals a rose-gold coloured PVD rotor featuring a special engraving of a planisphere with the Prime Meridian running through its centre. This true GMT watch is powered by the exclusive Longines calibre L844.4, a self-winding mechanical movement with a silicon balance spring and innovative components that make it up to 10 times more resistant to magnetic fields than the ISO 764 standard requires. This high-precision movement provides a power reserve of up to 72 hours and is chronometer-certified by the COSC.

The Longines Spirit Zulu Time 1925 comes with both a stainless steel bracelet and a black NATO strap. The watch is presented in a special-edition box.

LONGINES SPIRIT ZULU TIME 1925

L3.802.4.50.6

The Longines Spirit Zulu Time embodies the brand's century-old expertise in multiple time-zone timepieces.

This watch features a 39-mm stainless steel case with a bidirectional rotating bezel and ceramic insert with 24-hour scale divided in two shades, matt black and intense polished black, elegantly indicating day and night hours. The matt black dial creates a striking contrast with the rose-gold coloured hands and indexes, treated with Super-LumiNova®. The dial is further distinguished by five stars elegantly positioned above the 6 o'clock marker, where there is also a discreet date window and the years "1925 - 2025" engraved in a subtle tone-on-tone finish.

LONGINES SPIRIT ZULU TIME

L3.802.4.60.6

The Longines Spirit Zulu Time embodies the brand's century-old expertise in multiple time-zone timepieces.

This watch features a 39-mm stainless steel case with a bidirectional rotating bezel and blue ceramic insert with 24-hour scale. The sanded anthracite dial creates a striking contrast with the yellow-gold coloured hands and indexes, treated with Super-LumiNova®. The dial is further distinguished by five stars elegantly positioned above the 6 o'clock marker, where there is also a discreet date window.
