

The Gourmet Bar

FAUCHON L'Hotel Paris has disrupted the hospitality industry by reimagining the typical in-room “mini bar” to create a “mini bar on steroids.”

The epitome of the hotel’s commitment to creating a centerpiece of gastronomy, the Gourmet Bar is a custom pink armoire designed by Sacha Lakic and produced by the House Roche-Bobois. As attractive as it is functional, this stunning piece of furniture (also available for guest purchase worldwide) enables incomparable gratification.

Within the many doors and drawers, guests can enjoy unique moments of pure decadence as they seek and savor favorite FAUCHON delicacies. As our special gift, FAUCHON offers complimentary FAUCHON creations upon arrival to suit your taste preferences. We will customize the contents according to your preference: salty, sweet, or tasting (a combination of all three).

The Gourmet Bar includes a “fresh product” cabinet for pastry, chocolates, and foie gras, as well as a preview of other FAUCHON specialties all kept at the ideal temperature. The “drinks” cabinet is the perfect spot to hold wine, spirits, champagne, water, juices, and soft drinks. There is a special area for sweet and savory FAUCHON snacks – just perfect for an afternoon treat – as well as an area to enclose the hot water kettle and Nespresso coffee machine for FAUCHON tea, and coffee.

The FAUCHON items in the Gourmet Bar are complimentary — including the FAUCHON Champagne — and guests are invited to take any unused items home to share with friends and family or as a reminder of their stay. Behind a small partition there are soft drinks, beer, and wine, which are available for a fee.

The Gourmet Bar items are replenished every two days.
