

CLINIQUE

Clinique Reinvents Glow with Sun-Kissed Face Gelee: The Multitasking Complexion Companion for Radiant Skin

Clinique unveils its latest breakthrough product: the Sun-Kissed Face Gelee. This new wonder from Clinique's makeup range is designed to effortlessly deliver a natural glow to your skin, with versatility at its core.

The Sun-Kissed Face Gelee is more than just a bronzer. This lightweight, refreshing formula is a true multitasker for the skin. Enriched with hydrating ingredients, this melting gelee glides onto the skin, leaving behind a subtle veil of color and radiant glow. Its unique gel texture provides a pleasant cooling sensation upon application, while its vibrant pigments blend seamlessly with the skin for a natural and luminous finish.

This versatile product can be used in multiple ways to enhance your complexion. Use it to sculpt and define the contours of your face, add a pop of color to your cheeks, or even as a luminous base underneath your foundation for a natural lit-from-within glow.

Whatever your preferred method, the Sun-Kissed Face Gelee allows you to customize your look to suit your desires, from subtle to bold.

Available on [clinique.nl](https://www.clinique.nl) - Launching in stores in March 2024 for 37€.
