

## Stepping Stones 2.0

### SlateCast Quotes

#### **Teachers at North Thurston Washington Schools in Lacey, WA are excited about Stepping Stones 2.0 and the SlateCast feature.**

“I love SlateCast. We had fundamentals and this is much easier to get the kids on. We appreciate how you can have multiple Stepping Stones open to stream multiple games. (It’s) great for differentiated instruction.”

- Brittany Anderson, Learning Support Teacher and Math Coach, Woodland Elementary

“So excited about Slate Casting and the ability to easily differentiate activities and give students more opportunities to practice and build math concepts.”

- Lynn Pullar, Title 1 and Math Coach, South Bay Elementary

“SlateCast is an engaging tool for students to use for practice of math concepts.

- Cathy Johnson, Title 1 Teacher and Math Coach, Pleasant Glade Elementary

“Casting games are engaging, interactive and allow students to work together to achieve both academic and social goals.”

- Rebecca Carr, 4<sup>th</sup> Grade Teacher, Lydia Hawk Elementary

“Much of the feedback we gave during Stepping Stones first edition has been applied in Stepping Stones 2.0. The level of problem-solving has deepened and the sequencing of major content presented earlier in the school year makes more sense. Teachers and students continue to move forward and grow using the new features in Stepping Stones. ORIGO really listens to and learns from their customers.”

- Cristina Charney, Instructional Specialist K-5 Math, North Thurston Public Schools
