

TOM FORD BEAUTY

VANILLA SEX

VANILLA SEX is the epitome of sensual pleasure. Vanilla, one of the most sought-after ingredients in modern perfumery assumes a role that is anything but ordinary — and far from innocent.

The fragrance's mesmerizing dimensionality is exposed through an interplay of glamorously bright and seductively deep vanilla facets. A Vanilla CO2 Extract instantly lures with an explicit refinement, while Vanilla Tincture India, exclusively developed for TOM FORD, exudes a soft sensuality. A profound contrast is struck by Vanilla Absolute, an intriguingly dark vanilla note that deepens the fragrance's silhouette with sultry, shadowy depth.

VANILLA SEX is made more desirable with an alluring complexity that is unmistakably TOM FORD. An exquisite Ultravanil Accord bonds to vanilla's leathery qualities for an exhilarating spiciness. The disarming floralcy of jasmine lends a soft yet animalic richness. Any preconceived notions of vanilla's sweetness are dashed by sandalwood and orris notes that amplify the fragrance's unmatched sophistication.

A masterstroke in olfactive contrasts. An irresistible revelation. VANILLA SEX is maximalist vanilla in its purest form.

Suggested retail price:

30ml €210
50ml €342
250ml €850

Available as from mid-January 2024 at all Tom Ford points of sales
