

PLANTSCRIPTION™ RETINOL

Night Moisturizer with Alpine Flower

Available: February 15th

Origins expands its powerhouse *Plantscription*™ franchise to fight aging around the clock. The new, youth-renewing *Plantscription*™ Retinol Night Moisturizer with Alpine Flower redefines “*beauty sleep*” by combining the power of nature with the science of Retinol to reveal more radiant and youthful looking skin.

Over time, skin can lose its luster, resulting in the appearance of fine lines, wrinkles and uneven tone. Formulated with three potent “age erasers” – Anogeissus, Alpine Flower and Retinol - *Plantscription*™ Retinol works to combat multiple signs of aging to help restore skin’s youthful appearance. Alpine Flower and Anogeissus help support skin’s natural youth proteins, while Retinol jumpstarts the anti-aging process by helping speed up cell turnover.

Additionally, the formula’s advanced hydration technology helps replenish skin’s natural moisture reserves, keeping skin plump and healthy looking.
