These exotic Jazeel perfumes are a rare confluence of tradition and modernity; they evoke your aristocracy and sheer richness of spirit; your heart and soul soar on the fragrance of well-being; your entire being floats out of this world on a journey into the limelight; your self esteem blossoms; your thoughts and actions evolve to a higher plane; you harmonize with nature, and you view love in an entirely new light!

Ali's was a passionate odyssey, to create his exquisite "Love Collection" of Oriental perfumes.

Poet Nizar Qabbani's thoughts inspired Ali through his famous works such as:

My lover asked me: "What's the difference between the sky and me"?
I replied," the difference, my love,when you smile, I forget about the sky"

Jazeel Perfume House became the creators of luxury scent, offering only the most unique fragrances that every man and woman of discernment and sophistication would covet.
