ADDITIONS #1

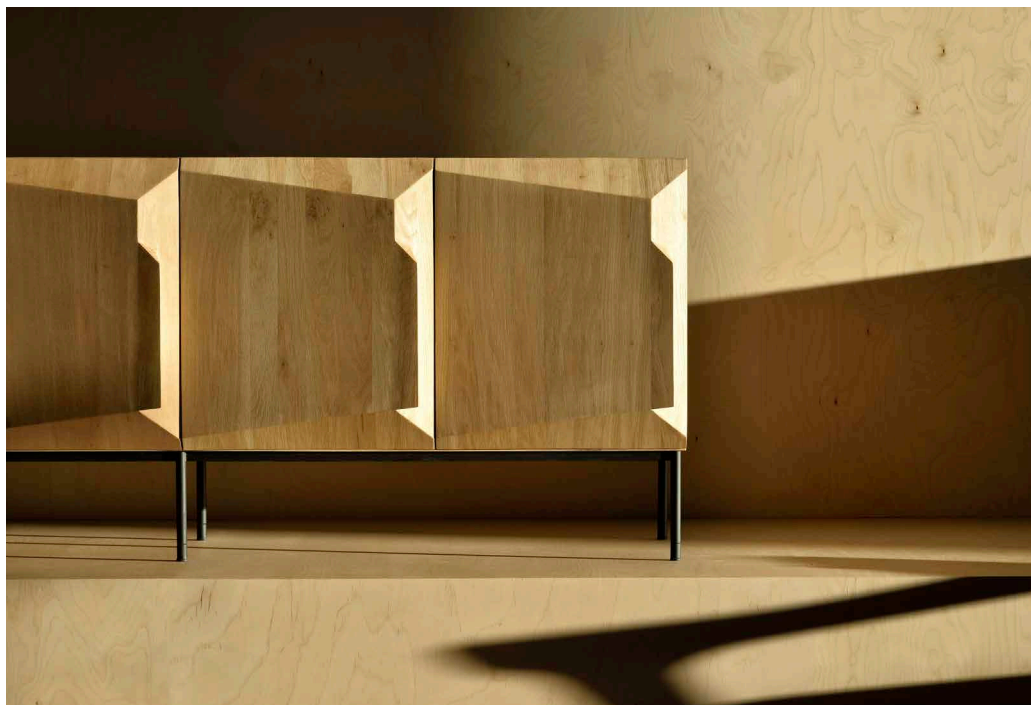

AUTHENTICITY
CRAFTMANSHIP
BALANCE
SIMPLICITY
FUNCTIONALITY

Our new additions are reinventions of existing Ethnicraft designs. They always stay true to our signature characteristics: organic shapes with visually light constructions. However, by playing with the dynamics of light and surfaces, the perception of an object changes continuously. This compelling feature is represented in many of our creations. Our products will therefore be everlasting and always interesting to behold.

MIKADO ROUND DINING TABLE
Design by Alain van Havre

ICONIC TABLE REDESIGNED

For the round version of our iconic Mikado dining table, we kept the same eye-catching construction but aimed for a visually lighter design. In an exercise of balance and stability, the legs are thinner and more refined with round edges to fit the table's new shape.

Transitioning from one shape to another, the Nexus dining table's sculpted legs offer lightness and movement. The result is a table full of fluidity marked by the legs' pointed inner edges that seem to draw a never-ending line. The Nexus dining table is now available in two sizes.

DYNAMIC SURFACE

DIFFERENT FROM ANY PERSPECTIVE

An angular composition forms the heart of a design that aims to distance itself from static and immobile surfaces. A unique sense of volume is created which alters your perception of the sideboard as you walk by. The Stairs sideboard is now available in natural oak.
