

TAYRON

Facts and figures

September 2024

The new Tayron in three sentences

Positioned between the Tiguan and the Touareg, the Tayron is an SUV whose comfort features are best-in-class, whose appealing quality give it a luxury-class feel, whose luggage compartment volume with five passengers on board reaches up to 885 litres, and whose plug-in hybrid drive with over 100 km of electric range is one of the most economical systems of its kind. A maximum trailer weight of up to 2.5 tonnes also makes the Tayron the ideal towing vehicle. Volkswagen offers the Tayron as a five- or seven-seater.

Luggage compartment capacity

	Tayron 5-seater	Tayron 7-seater	Tayron eHybrid 5-seater
Volume up to the first seating row	2,090 litres	1,905 litres	1,915 litres
Volume up to the second seating row	885 litres	850 litres	705 litres
Volume up to third seating row		345 litres
