## Eau d'Ombré Leather

Available as from 2 September 2024

The American West at dawn simmers with warm amber and sensual vanilla enveloped in a glowing leather accord. Eau d'Ombré Leather is a wildly radiant composition that awakens new layers of the desert landscape.

A trio of invigorating spices ignites a bold opening trail. Fresh essences of sparkling ginger, coriander and cardamom enliven Eau d'Ombré Leather's earthy facets with an instant shine, providing a bright, citrus-like and herbaceous impact.

Notes of captivating saffron add a bright punctuation to introduce the smoldering, glowing leather accord, new to Eau d'Ombré Leather. This richly, luminous facet radiates at the heart of the fragrance, revealing an expression of leather that flickers with the provocative tension between rich darkness and light—the iconic Ombré Leather signature now touched by the sunrise.

The exquisite sensuality of vanilla adds elegant luminosity and is procured in an artful tincture process. It begins with the cultivation of mature vanilla pods to produce the prized beans. They meticulously dry in direct sunlight for up to four weeks, and then in the shade for several months. The result evokes the addictive note of fresh vanilla pods laced with tantalizing, velvety facets.

Cedarwood essence stirs patchouli essence, velvety sandalwood and cypriol essence in an irresistible incandescence. This woody, earthy richness is sparked by the lingering warmth of amber merged with a tonka accord.
