

CLINIQUE

NEW Clinique Pop™ Lip + Cheek Oil in Black Honey

Available as from July 2024

A two-in-one tinted oil that delivers a dewy pop of our iconic Black Honey shade for lips and cheeks

Our iconic Black Honey shade now available as a multipurpose oil for lips and cheeks.

Conditions Lips with a nourishing blend of oils: safflower oil, jojoba oil, olive oil, sunflower seed oil, and castor oil.

Gives Cheeks Sheer Color: gives cheeks a light wash of color and a natural, dewy look.

Easy Application with soft tapered applicator: delivers the perfect slip of color to lips and cheeks. Just swipe and blend into skin with fingertips.

For whom? All skin types, all skin tones

How to use? Blend onto cheek quickly with fingertips, or layer the oil on lips.

Suggested Retail Price: €30,50

Available as from July 2024 at all points of sale and [Clinique.nl](https://www.clinique.nl)

Clinique's Iconic Black Honey

Clinique's Black Honey was first launched in 1971. Founder Carol Phillips named it after its goeey honeylike texture. In 1989 it transformed into the Almost Lipstick in Black honey. The balmy base together with the perfect blend of blue, red and yellow pigments melts into your lips and allows your natural color to shine through. Today it's our #1 selling lip shade in many markets.
