## TGW Logistics Group moves to the logistics hotspot of West Brabant, The Netherlands

***Ambitious systems integrator aiming for market share of more than 15 per cent within 5 years***

Oud Gastel, the Netherlands – On the 1 June 2016 TGW Logistics Group, a global market leader in dynamic and automated logistics solutions for warehousing, production, order picking and distribution, celebrated the opening of its new Benelux office in the Frame 21 business centre. The event was attended by both customers and partners. The office is based in the Borchwerf logistics business park in the municipality of Oud Gastel, in the Dutch region of West Brabant and is the culmination of a very busy and successful first year in the Benelux market.

"We surpassed our initial targets considerably," says Hans De Sutter, Head of Sales TGW Benelux. "We won two very large strategic projects within TVH and Bol.com. We have also expanded the Benelux team and set up our new office in Oud Gastel."

Accessibility was the decisive factor in choosing a location. From Oud Gastel, TGW can serve both the Belgian and the Dutch markets, and attract employees from both countries. In the quest for the ideal location, TGW was supported by the Brabant Development Corporation (BOM), the Netherlands Foreign Investment Agency (NFIA) and the West Brabant Regional Development Corporation (REWIN).

### **Ambitious targets**

TGW is experiencing significant growth in the Benelux, due to its role as an integrator of total solutions and the healthy development of e-commerce.

"The evolution in e-commerce provides tremendous opportunities. We recently began offering Life Time Services, a total package of maintenance services of our systems and facilities, so as to serve our customers even better", Hans De Sutter continues. "We are aiming for market share of 15 to 20 per cent in the Benelux within 5 years. We have big ambitions."

# Press Release

Therefore, TGW are looking to recruit technicians, software developers and logistics consultants both from Belgium and The Netherlands to join the team.
