INTERREG CARAIBES 2014 - 2020

INTERREG Caraïbes is a European Territorial Cooperation program enabling operators from Guadeloupe, French Guyana, Martinique and Saint-Martin to undertake win-win projects with their neighboring countries in the Caribbean, totalling some 40 countries and territories.

This operational program is part of a privileged partnership with the Wider Caribbean region international institutions, namely the ACS (Association of Caribbean States), the OECS (Organization of Eastern Caribbean States), the CARICOM/CARIFORUM (Caribbean Community / Caribbean Forum) that are members of the programme's strategic steering committee.

It also harmonizes with the strategies developed by the other international organizations in the Caribbean, such as the ECLAC (Economic Commission for Latin America and the Caribbean), and the SICA / SIECA (System of Integration for Central America / Secretariat for Economic Integration of Central America).

INTERREG Caraïbes has a budget of approximately 85.7 million euros, of which 64.2 via the European Regional Development Fund (ERDF), to support the projects that match the program strategy and the needs of the above-named territories.

The program comprises two components

A cross-border component, only for project leaders located in Guadeloupe, Martinique with a partner from the OECS

A transnational component, for project leaders located in Guadeloupe, French Guyana, Martinique, Saint-Martin with a partner from the Wider Caribbean.

How can the program funds be accessed ?

Type of applicants and partnership

The lead partner, or project leader, must meet the following criteria to qualify for a grant :

- Belong to one of the following categories: associations, non governmental organization, territorial authorities, media, universities, training institutes, research institutes, public or private companies, consultancy firms and others;
- Have its headquarters in Guadeloupe, French Guyana, Martinique and Saint-Martin and be directly involved in the preparation and implementation of the project.

The project leader is the preferential intermediary for the Joint Secretariat and regional contact points during the inception and implementation phases. He inspires the partnership of the project and is responsible for its proper execution.

The partnership must meet at least two of the following four criteria:

- joint development,
- joint implementation,
- joint staffing,
- joint financing

Selection of projects

Applications are reviewed and rated by the Joint Secretariat with the assistance, if necessary, of external experts. All the projects submitted by applicants are examined through precise criteria.

Contribution rates

The co-financing rate under the ERDF may reach 75% of the total eligible expenditure for the project.

This is a maximum amount, the effective rate is established on a case-by-case basis during the reviewing according to various rules, including the State aid rules.

Payments

An advance payment may be paid upon the recipient's justified request depending on the financial availabilities of the program. This advance payment may not exceed 20% of the total grant.

Subsequent payments (installments) will be made to the recipient, according to justified expenditures, and a performance report supported by justified invoices. The total amount of advance and installments must not exceed 80% of the grant. The balance will be paid upon submission of a final performance report with receipted invoices by the beneficiary.
