LOUD satin mood, reflections of the Orient

OUD satin mood, the latest introduction to our fabric inspired fragrance collection OUD mood, conveys the desire to bring a shimmering Orient to life. It is inspired by oud wood, a natural material that is amongst the rarest and most expensive in perfumery.

With your eyes closed, you can imagine flowing fabrics delicately draped over bare skin, caressed by intense and dazzling sunlight. You will want to wrap it around you, lose yourself in the depth of the moment and suspend time.

Transported by the finesse of a violet accord, oud wood from Laos curls on contact with rose essence from Bulgaria and rose absolute from Turkey. A rich vanilla and amber accord adds softness to this vibrant composition.
