The Best Brain-Boosting Formula

Omega-3s with SPMs blends sustainably sourced arctic herring caviar extract with fish oil concentrate, which provides naturally occurring phospholipids, specialized pro-resolving mediators (SPMs), and omega-3s. The beneficial omega-3s EPA and DHA support heart, brain, vision, joint, and immune health. SPMs support our body's defense system and assist with the natural resolution of our inflammatory response. Since many of us may not get enough omega-3s through diet alone and may have inadequate SPM production, a supplement can be a great option. Like all Carlson omega-3s, freshness, potency, and purity are guaranteed.*

1 Soft Gel Provides	
Cholesterol	20 mg
Choline	13 mg
Total Omega-3 Fatty Acids	215 mg
EPA (<i>Eicosapentaenoic Acid</i>)	40 mg
DHA (<i>Docosahexaenoic Acid</i>)	150 mg
