

Blue Light Defense

from the Inside Out

Benefits of Lutein Gummies:*

- ✓ Blue Light Protection
- ✓ Eye Function
- ✓ Antioxidant

Adult and Kid's Lutein Gummies are produced with Lutemax 2020®, which provides lutein, zeaxanthin (RR-zeaxanthin), and meso-zeaxanthin (RS-zeaxanthin) – three carotenoids that serve as powerful antioxidants and are clinically proven to support eye health by filtering high-energy blue light from digital devices and indoor/outdoor light.

Carlson®

Award-Winning Quality Since 1965

The Difference is Clear

The lutein, zeaxanthin, and meso-zeaxanthin in adult and Kid's Lutein Gummies with Lutemax 2020® help protect our eyes from harmful high-energy blue light, reduce eyestrain from digital device use, and support glare tolerance while using digital devices.* They also protect against oxidative stress and promote macular health; however, they aren't produced by our body, so we must consume them through our diet or a supplement.*

Lutein and zeaxanthin are found in green, leafy vegetables and yellow and orange fruits and vegetables. Meso-zeaxanthin is found in fish such as salmon, sardines, and trout. But because our dietary intake of lutein and zeaxanthin are often below the levels shown in studies to be effective, supplementation may be a better option.

Lutemax 2020® is derived from sustainably grown, GMO-free marigolds and delivers lutein and zeaxanthin in the same 5:1 ratio found in nature to support healthy eye function. Support your family's vision health with Carlson natural mango flavored Lutein Gummies for adults and kids.

2 Gummies Provide	
Lutein (as trans-lutein) [Extracted from marigolds (<i>Tagetes erecta</i>)(flower)]	20 mg
Zeaxanthin (as isomers) [Extracted from marigolds (<i>Tagetes erecta</i>)(flower)]	4 mg

Adult	
Size	Code
20 Gummies	4961
46 Gummies	4960

Kid's	
Size	Code
46 Gummies	4963
