Who do you want to be at school and college?

For many school age children, back-to-school shopping is fun and exciting. Why? Because they get to pick out their own stuff. You need to get the required supplies, but let them put their own twist on things. With all the options at IKEA, it's easy to find what fits their personalities.

For the college bound, moving away from home is a big step and a big opportunity. It's a chance to really explore their personal style. And because most student rooms are on the smaller side, they'll need to think creatively, using every inch of space in the best way for them.

So, whether you're looking to create the perfect study area for your little ones, or you're moving into a tiny, shabby dorm room and want to spruce it up, we can help.

We've curated a selection of well-designed, well-made, products and solutions, found in our stores worldwide, that fit perfectly into any school or college student's life - no matter how small the space. We've also included a range of flexible furniture designs that you can easily adapt and change as your family's needs, and your children, grow. And because it's IKEA you don't have to worry that it's going to cost a fortune.
