

**From Dull to Dazzling: 4 NEW Night Creams from  
The Estée Lauder Companies That Work Wonders While You Sleep**

Available as from September 2024

Yes, we know waking up in the morning can be awfully dreadful. It's even worse when your skin looks like it just emerged from a 100-year-long nap. Pillow marks on your cheek, dehydrated skin—we've all been there. Don't worry, with the new night creams from La Mer, Estée Lauder, and Clinique you'll look fresh and rosy all day, every day. Sleeping Beauty, who?

Did you know your skin naturally repairs while you sleep? Unfortunately, it's also the time of day your skin is most prone to moisture loss. As we get older, and with exposure to environmental aggressors, the skin barrier weakens which causes dehydration, lines, wrinkles, and uneven texture. If only there was something we could do about that... Oh wait!

**Estée Lauder Revitalizing Supreme Night Bounce**

Enter the Estée Lauder Revitalizing Supreme+ Night Power Bounce Creme. 40 years of Night Repair expertise and 30 years of collagen research, this night cream is here to save the day (or rather, night). Thanks to the breakthrough CollaNight-8 technology, you'll get a bounce boost in just four hours and wake up with visibly reduced lines. One night, and lines look 15% smoother. Imagine waking up with plumped, deeply hydrated skin that feels firmer and looks lifted. Wrinkles and neck lines? Not on our watch. Every application melts luxuriously from dense to weightless, making you feel like a royalty.
