Create your own magical moments

As the holiday season approaches, we all look forward to the time we'll spend together. Whether that's at Christmas, New Year's, or one of the many other festive gatherings that take place over the next few months, we know that treasured memories will soon be made – from a golden afternoon spent warming your hands by the fire after a crisp winter walk, to learning the latest dance crazes from the kids or slipping into a well-earned food coma.

And with great pleasure comes great responsibility – for the host, that is. Fending for (and feeding) so many more guests than usual can feel more than a little intimidating, especially when you're worried about fitting everyone into a small space or getting hold of the perfect gift. But it really doesn't have to be that difficult.

Over the next pages, you'll find a selection of inspiring home furnishing ideas created using our existing range and forthcoming products that can make throwing a spectacular celebration easier than ever. Which means you can spend more time savouring the fun that's on the way.

Setting the stage for unexpected moments

Lights, camera... action! It's the improvised, impromptu moments that really make the holidays memorable – just like this family, gathered together on whatever chairs they could get their hands on, awaiting the entrance of one of the (already peeking through the door) kids who's about to stage a performance for them.

All rock, no roll. Super-sturdy rocking chairs like this one help children develop their sense of balance as they grow – plus they're perfectly-sized to squeeze into your living room as an extra seat when the whole gang is in town.

PH174189.JPG **SUNVIK** rocking-chair 34,99 802.017.40

PH174186.JPG **MARYD** tray table 59,99 304.756.57 **New EKTORP** armchair 249,- Hallarp grey 193.198.85

Move up! This armchair's generous proportions mean grandchild can squeeze in with grandma when seat space is limited (or when they just want a cuddle). And with the lamp and tray table positioned in the just-right place, storytime is comfier than ever too.

The arrival of winter brings with it an exciting new world of smells and tastes, and in Sweden we celebrate it with glögg, a mulled fruit drink rich in earthy spices. Making your own is a sure-fire festive treat, but so is our VINTERSAGA glögg - which we've made to match a traditional alcohol-free Christmas recipe.

Lose yourself in play this holiday season

For many of us, the holiday season is something that inspires us to get creative and let loose. Why not draw your own tablecloth with wintry patterns and your favourite flowers? Or, if you're more like this dad, just limit yourself to dressing the table with a couple of new accessories while the fun's going on!

Looking for an arty gift? Our whole MÅLA range is made especially for mini-Picassos, with design adapted to ensure they're safe and easy to use in smaller hands. No worries if they stray a little outside the lines, either – the colours we use are completely non-toxic and wash out quickly. So you can be sure whatever you pick will work for them, from the moment they receive it to when they trade it in for full-size supplies!

This AGEN chair is handwoven from rattan, a renewable material that's lightweight and easy to move from the living room to the table when you're expecting extra dinner guests. Combine it with this AINA cushion to make sure whoever gets the spare seat is extra-comfy regardless.

PH174044.JPG AGEN chair 49,99 500.583.76 AINA cushion cover 8,99 704.095.09

PH173991.JPG POKAL glass 0,75 102.704.78 VARDAGEN plate 2,- Ø26 cm. 802.891.82

Dressing up your table a little can make a big impact. Low-effort additions, like patterned paper and pinecones you've picked up on walks can turn everyday favourites, including these VARDAGEN plates and POKAL glasses, into a super-special dinner setting.

What do you call a normal-looking dining table that's secretly super-sized? Well, this one's named NORDVIKEN. It hides two extension leaves under its surface that can be easily put into place by one person on their own – meaning you can get everything set up before Grandma, Grandpa or anyone else makes an appearance.

Make this Christmas white (and tasty)

Spending time in the kitchen together is a great way to bond – and what's more festive than whipping up some sweet treats for everyone to enjoy? This baking family have jumped into the task whole-heartedly, with the children sending clouds of sugar and flour billowing around the room like a sticky snowstorm. Tidying up might be a chore, but the rewards will be tasty enough to be worth it.

Handmade goodies sweeten even the worst of the winter weather – and with our premixed dough they're easier to make than ever. Just roll it out, cut out your favourite shapes, then wait for your kitchen to fill with the scent of ginger, cinnamon and cloves.

PH174184.JPG **BEKVÄM** step stool 17,99 401.788.88

Sometimes we all need a little helping hand – or foot. This BEKVÄM step stool allows smaller members of our family to reach kitchen surfaces and join in with the fun in a safe and secure way, no more wobbly chairs needed.

Who knew it was this simple to sprinkle on a little joy? This IDEALISK flour sifter is a small addition to your kitchen cupboard, but it makes it much easier to decorate cakes, french toast or gingerbread houses with icing sugar. And sift flour.

All set for high and low decoration

As Christmas approaches, everyone gets excited – and everyone wants to get into the spirit in their own way. This family is no different, with mum preparing the table for get-togethers to come while underneath one of the younger members creates a winter wonderland of their own. It's almost as magical as a fairy story (but with a little more tidying-up afterwards).

Here's a brilliant way to brighten up dark corners and secret dens. SOLBO night light gives off a cozy glow that's comforting without being too bright. It's shaped like a cute owl, too, which is fun for any young nature fan to have in their room.

What's a home without a Christmas tree, and what's a Christmas tree without baubles? Our VINTER range caters for every taste in ornaments – from minimalist silver shades to these brightly coloured ones.

PH174040.JPG **INGOLF** chair 49,99/each 701.032.50 **New VINTER 2020** decoration, bauble 12,99/20 pack. 704.810.67

Check out this Christmastime chair hack! When you add a slightly longer ribbon, it's simple to attach tree baubles and individual name tags and create an unforgettable mealtime atmosphere.

Imagine all the oohs and aahs

When we get together with family and friends during the holiday period, it's almost always around the table. And even small spaces can play host to extravagant festive feasts – especially when you cram in a few more chairs and turn your sideboard into a handy extra serving space. You can keep the party going the next day, too, with food storage that's perfect when you've got leftovers, well, left over.

A round table gives any festive meal a family feel, as the shape means everyone faces each other and nobody feels left out sat on the end. This one's wipe-clean too – which is really useful at tidying-up time, trust us.

PH174128.JPG **New UPPLAGA side plate 3**, - Ø22 cm. 904.737.64

White's alright, but bolder is better – layer contrasting-coloured plates for the different courses of your Christmas meal to add interest (and make everyone excited for what's coming next!).

Sometimes the old ones are the best. The antique style of these SÄLLSKAPLIG glasses reminds us of dinners at Grandma's house, and they're the perfect match for a traditional table setting or cozy drinks around the fireplace with friends.

PH174126.JPG **New** SÄLLSKAPLIG glass 5,99/4 pack. 404.729.03

Picked out the perfect serveware, but don't have anything to put in it? Check out our range of Christmas and holiday food for a taste of how we celebrate up here in Sweden.

PH175080.JPG **New** HUVUDROLL plant balls 500 g frozen 3,50 204.835.92

Serving is half the fun – and even more so with this INBRINGANDE serving stand. Use it to set the table for a party or carry it around to serve visitors tasty bites like canapés or pastries.

PH174066.JPG **New** INBRINGANDE serving stand, three tiers 12,99 704.770.94

PH174042.JPG **IKEA 365+** food container with lid, rectangular 6,49 092.690.65

Too much food to go round? These containers keep it fresh for meals to come! Alternatively, send it home with your guests if you're not so keen on eating leftovers until New Year.

Keep the festivities going all winter

Going out is fun, but so is staying in. These two couples have made the most of their New Year's-at-home by pushing together two sofas, creating a comfy spot for sitting together, chatting, and celebrating the festive season. Here's how you can make all your winter evenings feel just as cozy, with just a few easy additions and a little extra light.

Watching the fireworks on the balcony, or curling up on the sofa away from the cold – with a mobile drinks trolley it's up to you where you spend the evening. Just load up your RÅSKOG with everything you need, then roll it to wherever the party takes you.

Small, but perfectly-formed – this festive LERHAMN table is packed tight with tasty treats and bold decorative accessories, with a RÅSKOG trolley there too to handle the overflow. So, even in a small space, everything's set for the celebration to come!

No, you don't need a guest room to invite overnight guests. By combining a comfy GRÖNLID sofa bed with a LUBBAN trolley as a makeshift bedside table, this couple have created a welcoming space that makes any stay feel special.

When the party's over, getting everything back to normal is easy – even with sore heads. GRÖNLID sofa bed folds back into a chair in one simple movement, and the LUBBAN trolley can just be rolled back into position. You'll have to do the hoovering, though.

Step up your table-setting game

We've got guests visiting all winter – but how do we set the table for them in a way that makes an impression? Here's some inspiration for the variety of different styles you can accomplish for festive gatherings using easy-to-add dining products.

PH173910.JPG **New SÄLLSKAPLIG wine glass 9,99/4 pack. 404.728.99** **New UPPLAGA side plate 3,- 904.737.64** **TILLAGD 24-piece cutlery set 59,99 403.430.01**

PH173963.JPG **VARDAGEN goblet 5,99/4 pack. 504.158.94** **VARDAGEN plate 2,-/each Ø26 cm. 802.891.82** **SEDLIG 24-piece cutlery set 39,99 401.553.11**

PH173909.JPG **KONUNGSLIG wine glass 3,-/each 104.158.86** **STRIMMIG plate 3,-/each 604.263.78** **GAMMAN 24-piece cutlery set 29,99 503.849.58**

Modern, or traditional? Vibrant colours, or ultra-minimalist? Your table, your choice! By just changing up the textiles, dinnerware and an accessory or two, it's simple to give mealtime a whole new look.

These GLADELIG plates are made using a reactive glaze, giving each of them a one-of-a-kind handcrafted look. Pair them with a pile of pears and some extra foliage for some relaxed and rustic style.

Make this Christmas even grater

Why shouldn't you give a grater as a holiday gift? After all, at least you know the recipient will get use out of it – plus it's a little more original than socks. When presented in the right way, and given with love, even the most ordinary things can be made magical.

A gift that's sure to light up their face

PH174068.JPG **New** ENRUM lantern for tealight, in/outdoor 3,99 604.451.12

A pieceful gift to keep them busy

PH173992.JPG **New** BYGGLEK 201-piece LEGO® brick set 14,99 204.368.88

What gift is better than a spoon (or fork)ful of joy?

PH173962.JPG **GAMMAN** 24-piece cutlery set 29,99 503.849.58

As far as we're concerned, the best gifts are the ones we'd never go out to buy for ourselves. The replacement for that well-worn apron, new (meaning matching) cutlery, or that area rug you've had your eye on for ages. Say no to socks this year!

A sizzling gift that serves up Christmas spirit

PH174054.JPG VARDAGEN casserole with lid 39,99 004.372.66

A gift that grows with time

PH174053.JPG VANLIGEN vase/jug 17,99 304.518.40

Younger members of the family can be tough to buy for, especially when they go through phases with the things they like. But a cute cuddly toy hardly ever goes amiss. The same's true for mum and dad too - who wouldn't want a nice new casserole dish, or a vase full of flowers?

The perfect present for perfect presentation

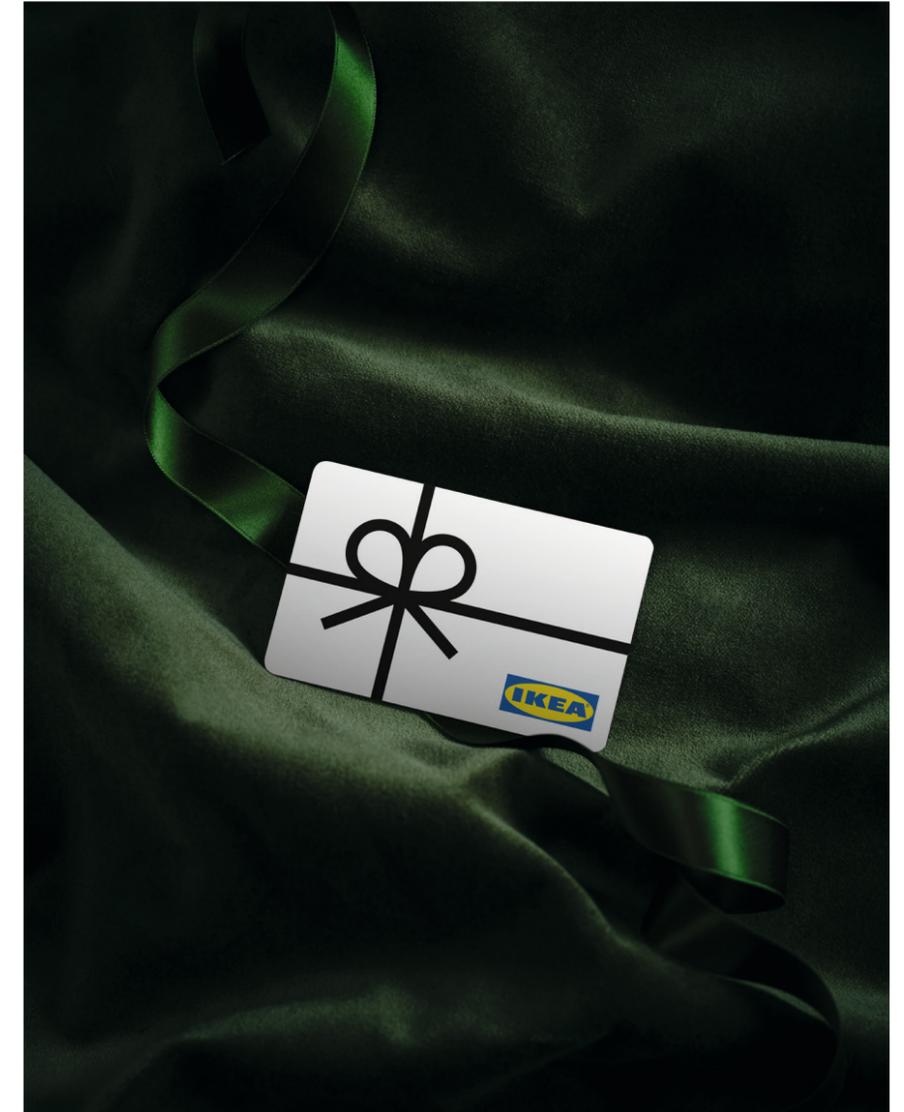

PH173874.JPG ARV BRÖLLOP serving stand with lid 14,99 401.255.50

Something soft for someone special

PH174135.JPG New ÅLANDSROT cushion 19,99 004.747.15

A pressure-free gift for picky people

PH174050.JPG Gift card

Little gifts, big impact! Here's a couple of present ideas that are sure to make pretty much anyone smile – from something to step up their baking presentation to a just-right winter accessory. A gift card is a little less glamorous, but some people find shopping for themselves more fun!

What do you get the person who has everything? Well, if you're in doubt, a scented candle is something we can all appreciate. And this one, HÖSTVÄRME, comes in a range of comforting and warming winter fragrances.

Festive admin, all wrapped up

Handing over the gift is great, and getting it wrapped and ready can be just as fun! Here's a few ways of preparing your presents that will work for every kind of giver – from those of us who just can't resist adding one more ribbon, to those who just want to get it out of the way and under the tree...

PH174055.JPG **New VINTER 2020 gift wrap roll 3,99/3 pack.** Snowflake pattern/star pattern blue/silver-colour 504.738.79

PH173876.JPG **TROLLPIL tea towel 4,99/2 pack.** 603.720.02

PH173908.JPG **New VINTER 2020 gift wrap roll 1,50** Christmas rose pattern green 904.715.24

Psst – using string to tie up your presents is super-simple, because it cuts out all the fiddly cutting and sticking that tape entails. And it opens up a whole range of new packaging possibilities, like wrapping with tea-towels that can be reused again later, or leaving a fresh flower poking out of the top of the vase you're gifting as a little extra bonus!

Your ready-made holiday recipe

The festive period can be stressful, with guests arriving, presents to buy and your whole home to get sorted. But it needn't be! Over the next couple of pages, we've put together a series of product selections that go together and can be bought all at once to solve any host's holiday woes – just like the extra-cozy extra bed set you can see opposite.

New STRÅLA LED lighting chain with 200 lights 24,99 904.798.36

Want to add a Christmas tree, but don't have so much space to put it in? See above. Searching for a winter-ready bedding set for sleepovers planned to come? We can help. Need a new set of dinnerware and cutlery for extended-family dinners? No worries, it's covered! One more extra bonus – they all come at a great price.

Exploring our Christmas range

Christmas time is always exciting – both at home and IKEA too. That's because it's now time for us to share the new products we've developed for the festive period, as well as welcome back a few of our old favourites. Over the next few pages, you'll find more info on what we have coming up instore (and hopefully a little bit of inspiration for your own celebrations).

What better way to welcome in winter than to get the Christmas tree all decked out? And with this one there's no need go out and get a new one every year, because it unscrews into smaller pieces and will sit comfortably in your cupboard for the rest of the year. And by the way – being made of at least 30% renewable plastic means a lot less vaccuming than the alternative!

PH173973.JPG **New VINTER 2020 decoration, wreath 17,99** 504.758.64

Actually – what's better than baubles? Especially when they come pre-arranged in a wreath like this, which is one sure-fire way to add a little shine to your door or wall.

All these glass baubles are new for this year's range - why not pick a few of your favourite colours to add to your existing collection when it's time to dig them out of storage? It makes everything feel just a little bit more fresh.

Here's something even more new – a Christmas tree made entirely out of bamboo! Not only is it a fast-growing, renewable material, but each is handmade by skilled craftspeople from plants that come in a whole spectrum of shades, making each one that leaves our factory completely one-of-a-kind.

Hanging paper star lampshades in your windows is a Swedish tradition that adds a little extra coziness (and light) to your home, regardless of where it finds itself in the world. Just plug in the lamp, add the shade, and watch the sparkling shapes it throws on your wall.

PH173974.JPG **New VINTER 2020 tablecloth 14,99** 504.726.67 **VINTERSAGA gingerbread house 4,50** 403.742.95 **New VINTER 2020 plate 9,99** 804.746.22

You don't have to be an architect to get the measurements right on this gingerbread house, which comes pre-shaped and cut to size – just use icing to stick it together for a picture-perfect holiday treat.

Each of these bowls is handmade by social entrepreneurs in Doi Tung, Thailand as part of a long-term collaboration that contributes to jobs, education, and healthcare for people in the region. And they're great for porridge too, with plenty of cinnamon and apple.

The really great thing about gifts is the giving – and this year it's going to be greater than ever. Here's a few ways you can present your presents this year, from a wall decoration that doubles-up as an advent calendar for cards and small gifts to a whole new selection of different-coloured gift wrap, ribbons and tags.
