BENTLEY

Press Information

TAILORING AND PERSONALISATION

- The Bentley Bentayga offers a wider range of paints, leathers and veneers than any other SUV.
- A portfolio of 17 standard paint colours is available, and can be extended to the full range of 90 exterior hues, including satin and pearlescent paints. As with all Bentleys, a bespoke colour-matching service is available. The extended range features a new colour developed exclusively for the car, Bentayga Bronze – a highly contemporary mid-tone colour reminiscent of ultra-luxury watches and jewellery.
- The wheels are an integral part of the exterior style. Three different sizes and designs are available:
 - 20" as standard, in silver-painted or polished finishes
 - 21" in painted, polished or black-painted with machined accent finishes
 - 22" – the largest wheel ever made available by Bentley. Fully machined from high-strength aluminium forgings, the 22" wheel is handed so that the five spokes always point towards the front of the car. This wheel is available in painted and polished finishes
- A total of 15 interior hide colours are available, providing an unrivalled level of choice. Three duo-tone colour splits and a fourth mono-tone option allow multiple style configurations, and as with all Bentleys, all elements of the interior are colour-matched to the leather – from carpets to deep-pile overmats to seatbelts.
- Seven different veneers are available, covering a spectrum from light to dark and from traditional to contemporary.
- The Bentayga W12 includes the Mulliner Driving Specification as standard, featuring:
 - 21" wheels
 - Diamond-quilted seats and doors
 - Embroidered Bentley emblems to the seat squabs
 - Drilled sports foot pedals
 - The Jewel fuel filler cap
- The Event Specification includes an innovative, patented sliding and folding 'Event Seat' that deploys from the rear load space. Designed to accommodate two adults, it allows occupants to enjoy outdoor activities while shaded by the tailgate or illuminated by the built-in 'stage lighting'. Trimmed in signature diamond-quilted leather, the Event Seat slides away when not required, or can be used as a convenient luggage divider.

BENTLEY

Press Information

- The All-Terrain Specification is a single customer option that adds a suite of advanced yet unobtrusive features and systems:
 - In addition to the four on-road driving modes, All-Terrain Specification adds four off-road driving modes – Mud & Trail, Sand, Dirt & Gravel and Snow, Ice & Wet Grass
 - A pack of underfloor protection is fitted, including a sump guard, sill protectors, battery protector and fuel tank shield
 - Additional information is available on the Driver Information Panel, including steering angle, individual wheel articulation, vehicle pitch and roll, a compass and an altimeter
- The Styling Specification consists of a number of high-quality carbon-fibre styling features that also bring aerodynamic benefits, including a front splitter, sill extensions, a rear diffuser and new wing mirrors. Also available are a bi-plane tailgate spoiler and an alternative exhaust tailpipe finisher.
- A Black Brightware Specification makes a dramatic, bold statement by specifying a gloss-black finish to the headlamp bezels, radiator shell surround and matrix grille, front fender vents, door and side glass brightware, and rear lamp and number-plate bezels.
- An electrically deployed tow bar can be specified (and a fixed version should market legislation requires it). A switch in the tailgate deploys the hidden tow bar in 22 seconds, and once deployed the Bentayga has a maximum towing capacity of 3,500 kg.
- The Luggage Management Specification consists of a telescopic dividing bar and restraining straps that allow luggage to be securely held in the boot, utilising floor rails that are fitted as standard.
- Increasing the usability of the Bentayga for outdoor leisure and sporting pursuits, a range of individual options is also available:
 - Electrically retractable sill steps ease ingress to and egress from the car, folding away to be invisible when not needed
 - Aerodynamic cross bars can be fitted to the roof bars, to which a roof box or a ski and snowboard carrier can be fitted
 - A cycle carrier can be mounted to the tow bar (when specified)
 - Five different load space stowage solutions are available:
 - Load assist tray that slides on boot floor rails
 - Secure, lockable drawer stowage
 - Lockable animal cages
 - Wet gear storage
 - Reversible boot mats with bumper protection

BENTLEY

Press Information

- Building even further on the options for personalisation, Bentley's bespoke division, Mulliner, offers a range of features, including two highlights:
 - A bespoke three-piece picnic hamper set, developed in conjunction with Linley, that stows neatly in the boot space. Each hamper is trimmed in diamond-quilted leather and features a cushioned top to allow them to be used as outdoor seats. One hamper contains bespoke fine Linley china crockery, cutlery and crystal glass, the second is refrigerated for the storage of cold drinks, champagne and wine, while the third is designed to carry dry goods
 - A Mulliner Tourbillon by Breitling is another luxury Mulliner product available on the Bentayga. Fitted to the dashboard, this bespoke mechanical Tourbillon, the most complex of watch mechanisms, is machined in solid gold, and can be selected in either rose or white gold. This masterpiece features either a mother-of-pearl or ebony pearl face and eight diamond indexes. The mechanism is automatically wound periodically by a dedicated drive from the car
