Located in Hall 3 of the FIRA Barcelona, Gran Via, the Sennheiser booth (3C500) will feature an interactive touchscreen for attendees to easily discover the Sennheiser technology and collaborations that streamline integration and deliver engaging experiences.

At ISE 2024, integrators, consultants, and end-users can explore the full potential of Sennheiser products when paired with solutions produced by its global partners and alliances. Throughout the event, Sennheiser is collaborating with 20 leading manufacturers from their partner network, including Airtame, Audac, AVer, Crestron, Lightware, Lumens, Q-SYS, Xilica, and more, to deliver an in-show campaign that highlights the benefits of their combined solutions.

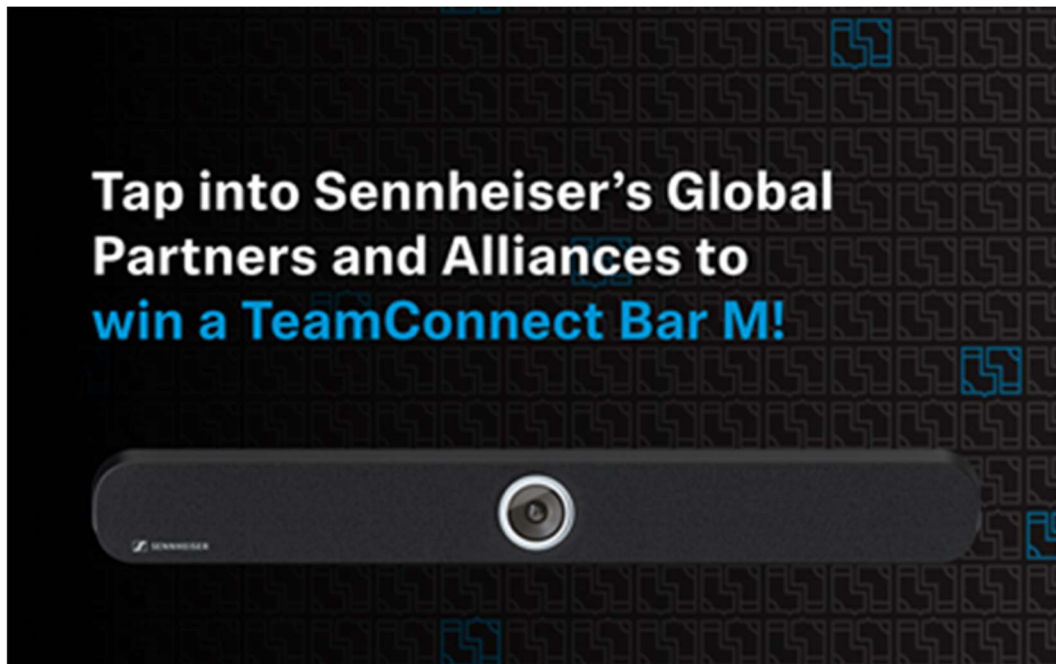

Sennheiser + Partners and Alliances = The Perfect Pair
